

IMPORTANT NOTICE

In accessing the attached base prospectus supplement (the "Supplement") you agree to be bound by the following terms and conditions.

The information contained in the Supplement may be addressed to and/or targeted at persons who are residents of particular countries only as specified in the Base Prospectus (as defined in the Supplement) and is not intended for use, and should not be relied upon, by any person outside those countries. **Prior to relying on the information contained in the Supplement, you must ascertain from the Base Prospectus whether or not you are an intended addressee of, and eligible to view, the information contained therein.**

The Supplement and the Base Prospectus do not constitute, and may not be used in connection with, an offer to sell or the solicitation of an offer to buy securities in the United States or any other jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration, exemption from registration or qualification under the securities law of any such jurisdiction.

The securities described in the Supplement and the Base Prospectus have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), or with any securities regulatory authority of any state or other jurisdiction of the United States and may include notes in bearer form that are subject to U.S. tax law requirements. Subject to certain exceptions, such securities may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**")). The securities described in the Supplement and the Base Prospectus will only be offered in offshore transactions to non-U.S. persons in reliance upon Regulation S.

For a more complete description of restrictions on offers and sales of the securities described in the Supplement and the Base Prospectus, see pages ii to vii and the section "*Subscription and Sale*" in the Base Prospectus.

VIKTIG INFORMATION

När du tar del av detta tillägg till grundprospekt ("Tilläggsprospektet") godtar du att bli bunden av följande villkor.

Informationen i detta Tilläggsprospekt kan vara adresserad till och/eller riktad till personer som bor i särskilda länder som endast anges i Grundprospektet (såsom definierat i Tilläggsprospektet) och är inte avsedd för användning och ska inte förlitas på av någon person utanför de länderna. **Innan du förlitar dig på innehållet i detta Tilläggsprospekt måste du säkerställa genom Grundprospektet att du är en avsedd adressat av, och behörig att ta del av, informationen däri.**

Tilläggsprospektet och Grundprospektet utgör inte, och får inte användas i samband med, ett erbjudande att sälja eller en inbjudan att köpa värdepapper i USA eller i någon annan jurisdiktion i vilken ett sådant erbjudande, inbjudan eller försäljning skulle vara olagligt utan registrering, ett undantag från registrering eller kvalificering enligt annan bestämmelse under värdepapperslagarna i en sådan jurisdiktion.

De värdepapper som beskrivs i Tilläggsprospektet och i Grundprospektet har inte, och kommer inte, att registreras i enlighet med U.S. Securities Act of 1933, såsom den har ändrats ("**Securities Act**"), eller vid någon regulatorisk myndighet för värdepapper i någon stat eller annan jurisdiktion av de förenta staterna och kan inkludera fysiska värdepapper som är föremål för krav enligt amerikansk skattelagstiftning. Med förbehåll för vissa undantag, får värdepapperen inte erbjudas eller säljas direkt eller indirekt inom USA eller till, för, eller till förmån för, U.S. persons (såsom begreppet definieras i Regulation S i Securities Act ("**Regulation S**")). De värdepapper som beskrivs i Tilläggsprospektet och Grundprospektet kommer endast erbjudas i offshore-transaktioner till personer som inte är U.S. persons i enlighet med Regulation S.

För en mer komplett beskrivning av restriktionerna för erbjudanden och försäljning av värdepapperen som beskrivs i Tilläggsprospektet och Grundprospektet, se sidorna ii till vii och avsnittet "*Teckning och Försäljning*" i Grundprospektet.

SUPPLEMENT NO. 1 DATED 12 AUGUST 2016 TO THE BASE PROSPECTUS DATED 15 JUNE 2016

NORDEA BANK AB (PUBL)
(Incorporated with limited liability in the Kingdom of Sweden)

NORDEA BANK FINLAND PLC
(Incorporated with limited liability in the Republic of Finland)

Programme for the Issuance of Warrants and Certificates

This supplement no. 1 (the "**Supplement**") is supplemental to, and must be read in conjunction with, the base prospectus dated 15 June 2016 (the "**Base Prospectus**") prepared by Nordea Bank AB (publ) ("NBAB") and Nordea Bank Finland Plc ("NBF" and together with NBAB, the "**Issuers**") with respect to their Programme for the Issuance of Warrants and Certificates (the "**Programme**") and constitutes a supplement for the purposes of Article 16 of Directive 2003/71/EC, as amended (the "**Prospectus Directive**"). Terms defined in the Base Prospectus have the same meaning when used in this Supplement.

This Supplement has been approved by the Central Bank of Ireland (the "**Central Bank**"), as competent authority under the Prospectus Directive. The Central Bank only approves this Supplement as meeting the requirements imposed under Irish and European law pursuant to the Prospectus Directive.

The Issuers accept responsibility for the information contained in this Supplement. To the best of the knowledge of the Issuers (having taken all reasonable care to ensure that such is the case) the information contained in this Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.

To the extent that there is any inconsistency between (a) any statements in or incorporated by reference into this Supplement and (b) any statement in or incorporated by reference into the Base Prospectus, the statements in this Supplement will prevail.

Save as disclosed in this Supplement, no other significant new factor, material mistake or inaccuracy relating to information included in the Base Prospectus has arisen or been noted since the publication of the base prospectus dated 15 June 2016.

An investor which has agreed, prior to the date of publication of this Supplement, to purchase or subscribe for Notes issued under the Programme may withdraw its acceptance before the end of the working day 16 August 2016 in accordance with the Prospectus Directive.

This Supplement is drawn up in the English language. In case there is any discrepancy between the English text and the Swedish text, the English text stands approved for the purposes of approval under the Prospectus (Directive 2003/71/EC) Regulations 2005.

AMENDMENTS TO THE BASE PROSPECTUS

With effect from the date of this Supplement, the information appearing in the Base Prospectus shall be amended and/or supplemented in the manner described below.

DEMERGER OF NBF

According to the demerger plan the planned registration date for the Demerger of NBF was 1 July 2016. The conditions for the registration of the Demerger were not met by 1 July 2016. As a consequence thereof, it is now NBF's intention to register the demerger as soon as practically possible after the conditions for registration of the demerger have been met. The current expectation is that these conditions will be met during the third, or at the beginning of the fourth, quarter of 2016.

NBAB SECOND QUARTER REPORT 2016

On 20 July 2016, NBAB published its second quarter report for the six months ending 30 June 2016 (the "**NBAB Second Quarter Report 2016**"). The NBAB Second Quarter Report 2016 contains unaudited consolidated and individual financial statements. By virtue of this Supplement, the unaudited consolidated income statement, unaudited consolidated statement of comprehensive income, the unaudited consolidated balance sheet, the unaudited consolidated statement of changes in equity, the unaudited consolidated cash flow statement (condensed), the notes to the consolidated financial statements, the unaudited NBAB income statement and unaudited NBAB balance sheet, the notes to the individual financial statements and the auditor's report on their review of the NBAB Second Quarter Report 2016 are set out in the annex hereto, and such annex forms part of this Supplement and the Base Prospectus.

NBF SECOND QUARTER REPORT 2016

On 20 July 2016, NBF published its second quarter report for the six months ending 30 June 2016 (the "**NBF Second Quarter Report 2016**"). The NBF Second Quarter Report 2016 contains unaudited consolidated financial statements. By virtue of this Supplement, the unaudited consolidated income statement, unaudited consolidated statement of comprehensive income, the unaudited consolidated balance sheet, the unaudited consolidated statement of changes in equity, the unaudited consolidated cash flow statement (condensed) and the related notes to the NBF Second Quarter Report 2016 are set out in the annex hereto, and such annex forms part of this Supplement and the Base Prospectus.

RECENT DEVELOPMENTS

To facilitate a sharper customer focus it has been decided to adjust the organisation and divide the Retail Banking business area into two business areas, Personal Banking and Commercial & Business Banking, from 1 July 2016.

Nordea has the ambition to be in the forefront of digitisation within banking and therefore is establishing a new Group digital unit with the objective to drive the digital agenda forward across the Group. The unit will be co-headed by Poul Raaholt, previously head of Group IT at Nordea, and Ewan MacLeod, previously responsible for the Retail digital transformation programme at the Royal Bank of Scotland. Alvaro Garrido, previously Group Head of Technology at Standard Chartered Bank, is the new head of Group IT. This new Group digital unit will start to operate on 1 September 2016.

LEGAL PROCEEDINGS AND INVESTIGATIONS

The paragraph under the heading "*Legal and regulatory claims arise in the conduct of the Nordea Group's business*" in the "*Risk Factors*" section on pages 47 to 48 of the Base Prospectus is deleted and replaced by the following:

"In the ordinary course of its business, the Nordea Group is subject to regulatory oversight and liability risk. The Nordea Group carries out operations through a number of legal entities in a number of jurisdictions and is subject to regulations, including, but not limited to, regulations on conduct of business, anti-money laundering, economic and financial sanctions, payments, consumer credits, capital requirements, reporting and corporate governance, in such jurisdictions. Regulations and regulatory requirements are also continuously amended and new requirements are imposed on the Nordea Group. There can be no assurances that breaches of regulations by the Nordea Group will not occur and, to the

extent that such a breach does occur, that significant liability or penalties will not be incurred.

The Nordea Group is involved in a variety of claims, disputes, legal proceedings and investigations in jurisdictions where it is active. These types of claims, disputes, legal proceedings or investigations expose the Nordea Group to monetary damages, direct or indirect costs (including legal costs), direct or indirect financial loss, civil and criminal penalties, loss of licenses or authorisations, or loss of reputation, criticism or penalties by supervisory authorities as well as the potential for regulatory restrictions on its businesses, all of which could have a material adverse effect on the Nordea Group's business, financial condition and results of operations. Adverse regulatory actions against the Nordea Group or adverse judgments in litigation to which the Nordea Group is party could result in restrictions or limitations on the Nordea Group's operations or result in a material adverse effect on the Nordea Group's business, financial condition and results of operations."

The paragraph under the heading "*Legal Proceedings and Investigations*" in the "Nordea Bank AB (publ)" section on page 283 of the Base Prospectus are deleted and replaced by the following:

"Within the framework of normal business operations, the Nordea Group faces claims in civil lawsuits and disputes, most of which involve relatively limited amounts. The Nordea Group is involved in a variety of claims, disputes, legal proceedings and governmental investigations in jurisdictions where it is active. These types of claims and proceedings expose the Nordea Group to monetary damages, direct or indirect costs (including legal costs), direct or indirect financial loss, civil and criminal penalties, loss of licenses or authorisations, or loss of reputation, criticism or penalties by supervisory authorities as well as the potential for regulatory restrictions on its businesses. As at the date of this Base Prospectus, none of the current disputes may have, or have had, significant adverse effects on the Nordea Group or its financial position.

Supervisory authorities regularly conduct investigations on the Nordea Group's regulatory compliance. As of the date of this Base Prospecus, the Nordea Group is subject to certain ongoing investigations, which include the investigation concerning the compliance of Nordea Bank Danmark A/S with applicable anti-money laundering regulations and the inquiries related to the Panama papers discussed in more detail below. The Nordea Group is also responding to inquiries from U.S. governmental authorities regarding historical compliance with certain U.S. financial sanctions. As of the date of this Base Prospectus, the outcome of such investigations, which could include criticism and/or penalties, is pending.

In April 2016, the so-called "Panama papers," that is, more than 11.5 million documents leaked from the files of a Panamanian law firm, were released to the public. The Panama papers primarily comprise documentation with respect to offshore companies set up by a Panamanian law firm. Following the publication of the Panama papers, the SFSA and other authorities in markets where the Nordea Group operates have requested information related to customers with offshore structures and the Nordea Group's role in relation to such structures. As of the date of this Base Prospectus, these inquiries are in an initial phase and it is too early to assess their outcome.

See also "*Risk Factors—Risks Relating to the Legal and Regulatory Environments in which the Nordea Group Operates—Legal and regulatory claims arise in the conduct of the Nordea Group's business.*"

Nordea also initiated an internal investigation following the publication of the Panama papers to assess whether Nordea Bank S.A. in Luxembourg ("**Nordea Bank Luxembourg**") had adhered to internal rules and external regulations regarding activities related to offshore structures. On 20 July 2016, Nordea announced that the internal investigation had been completed and that the investigation had been presented to Nordea's Board of Directors. Nordea is also sharing the findings of the internal investigation with the relevant supervisory authorities. Nordea has decided on a number of actions to address the key findings and recommendations made in connection with the investigation. These actions include the integration of Nordea Bank Luxembourg into the Nordea Group's Nordic organisation to ensure a consistent implementation of compliance policies.

In June 2015, the Danish Financial Supervisory Authority (*Finanstilsynet*) (the "**DFSA**") investigated the compliance of Nordea Bank Danmark with applicable anti-money laundering regulations. Nordea announced on 17 June 2016 that the DFSA's investigation had resulted in criticism and that the matter will, in accordance with Danish administrative practice, be handed over to the Danish police for further handling and possible sanctions."

NBAB GROUP EXECUTIVE MANAGEMENT

The paragraphs on pages 280 to 282 under the heading "*Group Executive Management*" in the "*Nordea Bank AB (publ)*" section of the Base Prospectus are to be deleted and replaced by the following:

Program för Warranter och Certifikat

Detta Tilläggsprospekt nr. 1 ("**Tilläggsprospektet**") är ett tillägg till, och måste läsas tillsammans med, grundprospektet daterat den 15 juni 2016 upprättat av Nordea Bank AB (publ) ("**NBAB**") och Nordea Bank Finland Plc ("**NBF**" och tillsammans med NBAB "**Emittenterna**" för deras Program för Warranter och Certifikat ("**Programmet**") och utgör ett tillägg i enlighet med Artikel 16 i direktiv 2003/71/EG, såsom ändrat ("**Prospektdirektivet**"). Definierade termer i Grundprospektet har samma betydelse när de används i detta Tilläggsprospekt.

Detta Tilläggsprospekt har godkänts av Irlands centralbank (En: *Central Bank of Ireland*) ("**Centralbanken**"), som behörig myndighet enligt Prospektdirektivet. Centralbanken godkänner endast att Tilläggsprospektet uppfyller de krav som ställs enligt irländsk och europeisk lagstiftning i enlighet med Prospektdirektivet.

Emittenterna är ansvariga för informationen i detta Tilläggsprospekt. Såvitt Emittenterna (som har iakttagit all vederbörlig omsorg för att säkerställa att så är fallet) känner till, är informationen i detta Tilläggsprospekt korrekt och utelämnar inte något som sannolikt skulle påverka innebörden av information.

I den utsträckning det föreligger diskrepans mellan (a) information i, eller som är införlivad genom hänvisning i, detta Tilläggsprospekt och (b) information i, eller som är införlivad genom hänvisning i, Grundprospektet, ska informationen i detta Tilläggsprospekt äga företräde.

Förutom såsom informeras om i Tilläggsprospektet, har ingen annan betydelsefull ny omständighet, väsentligt misstag eller felaktighet som relaterar till information i Grundprospektet uppstått eller noterats sedan datumet för publicerandet av Grundprospektet daterat 15 juni 2016.

En investerare som innan datumet för publicering av detta Tilläggsprospekt har gjort en anmälan om eller på annat sätt samtyckt till köp eller teckning av Lån som omfattas av Programmet har rätt att återkalla sin anmälan eller sitt samtycke till köp eller teckning innan slutet av arbetsdagen den 16 Augusti 2016, i enlighet med Prospektdirektivet.

Detta Tilläggsprospekt är författat på engelska. För det fall att det finns någon diskrepans mellan den engelska texten och den svenska texten, är det den engelska texten som är godkänd i enlighet med förfarandet för godkännande under Prospectus (Directive 2003/71/EG) Regulations 2005.

ÄNDRINGAR I GRUNDPROSPEKTET

Med effekt från datumet för detta Tilläggssprospekt, ska information i Grundprospektet ändras och/eller kompletteras såsom beskrivs nedan.

DELNING AV NBF

Enligt delningsplanen är det tilltänkta registreringsdatumet för Delningen av NBF den 1 juli 2016. Villkoren för registreringen av Delningen var inte uppfyllda per den 1 juli 2016. Som följd därav är det nu NBF:s intention att registera delningen så snart som praktiskt möjligt efter att villkoren för registeringen har uppfyllts. Den nuvarande förväntningen är att dessa villkoren kommer att uppfyllas under det tredje eller början av det fjärde kvartalet 2016.

NBAB ANDRA KVARTALSRAPPORT 2016

Den 20 juli 2016 publicerade NBAB dess andra kvartalsrapport för de sex månader som slutar 30 juni 2016 ("**NBAB Andra Kvartalsrapport 2016**"). NBAB:s Andra Kvartalsrapport 2016 innehåller oreviderade konsoliderade och individuella finansiella rapporter. Genom detta tilläggssprospekt anses den oreviderade konsoliderade resultatrapporten, den oreviderade konsoliderade rapporten över totalresultat, den oreviderade konsoliderade balansräkningen, den oreviderade konsoliderade rapporten över förändringar i eget kapital, den oreviderade konsoliderade kassaflödesanalysen (komprimerad), noterna till den konsoliderade finansiella räkenskaperna, den oreviderade resultatrapporten för NBAB och dess oreviderade balansräkning, noterna till de individuella räkenskaperna och revisorsrapport på deras granskning av NBAB:s Andra Kvartalsrapport 2016 i annexet härtill, och annexet utgör en del av detta Tilläggssprospekt och Grundprospektet.

NBF ANDRA KVARTALSRAPPORT 2016

Den 20 juli 2016 publicerade NBF dess andra kvartalsrapport för de sex månader som slutar 30 juni 2016 ("**NBF Andra Kvartalsrapport 2016**"). NBF Andra Kvartalsrapport 2016 innehåller oreviderade konsoliderade finansiella rapporter. Genom detta Tilläggssprospekt anses den oreviderade konsoliderade resultatrapporten, den oreviderade konsoliderade rapporten över totalresultat, oreviderade konsoliderade balansräkningen, den oreviderade konsoliderade rapporten över förändringar i eget kapital, oreviderade konsoliderade kassaflödesanalysen (komprimerad) och de därtill relaterade noterna i NBF:s Andra Kvartalsrapport 2016 i annexet härtill, och annexet utgör en del av detta Tilläggssprospekt och Grundprospektet.

SENASTE HÄNDELTEUTVECKLINGEN

För att främja ett starkare kundfokus har man tagit beslut om att anpassa organisationen genom att dela upp bankverksamheten i två verksamhetsområden, Personal Banking och Commercial & Business Banking från och med den 1 juli 2016.

Nordea har ambitionen att vara ledande inom bankdigitalisering och man håller därför på att utarbeta en ny digital gruppitet som ska driva på den digitala agendan genom koncernen. Enheten kommer att ledas tillsammans av Poul Raaholt, tidigare chef i Group IT på Nordea, och Ewan MacLeod, tidigare ansvarig för Retail digital transformation programme på Royal Bank of Scotland. Alvaro Garrido, tidigare Group Head of Technology på Standard Chartered Bank, är ny chef för Group IT. Den nya digitala gruppitet kommer att påbörja sin verksamhet den 1 september 2016.

LEGALA PROCESSER OCH UTREDNINGAR

Paragrafen under rubriken "*Rättsliga och regulatoriska krav uppkommer vid genomförandet av Nordeakoncernens verksamhet*" i stycket om "*Riskfaktorer*" på sidan 47-48 i Grundprospektet är raderat och ersätts med följande:

"Nordeas vanliga verksamhet är föremål för regulatorisk övervakning och ansvarsrisker. Nordeakoncernen bedriver verksamhet genom flertalet legala enheter i flertalet jurisdiktioner och är i dessa underkastad regelverk som inkluderar, men som inte begränsas till, bestämmelser om hur företag ska uppträda, bestämmelser om penningtvätt, ekonomiska och finansiella sanktioner, betalningar, konsumentkrediter, kapitalkrav, rapporteringsskyldigheter och styrkrav. Regelverk och regulatoriska krav ändras dessutom hela tiden och nya krav ställs därför på Nordea-koncernen. Inga garantier kan ges om att

Nordea-koncernen inte kommer att överträda dessa regler och, för det fall att en överträdelse inträffar, kommer någon betydande skuld eller sanktion inte att uppstå.

Nordea-koncernen är involverad i ett antal krav, tvister, rättsprocesser och utredningar i jurisdiktioner där koncernen är aktiv. Dessa typer av krav, tvister, rättsprocesser eller utredningar sätter Nordea-koncernen i risk för monetär skada, direkt och indirekta förluster (inkluderat rättsliga kostnader), direkta eller indirekta finansiella förluster, civila och straffrättsliga påföljder, förlorade licenser eller tillstånd, eller nedsatt rykte, kritik eller sanktioner från övervakande myndigheter, liksom möjligheten för Nordea-koncernen att underkastas regulatoriska restriktioner på verksamheten, vilket kan få en betydande materiell negativ påverkan på Nordea-koncernens verksamhet, finansiella ställning och resultat. Negativa lagstiftningsåtgärder mot Nordea-koncernen eller negativa utgångar i tvister till vilket Nordea-koncernen är part kan resultera i restriktioner eller begränsningar på Nordea-koncernens verksamhet, eller resultera i en materiell negativ inverkan på Nordea-koncernens verksamhet, finansiella ställning och resultat.”

Paragrafen under rubriken ”*Rättsliga Processer och Utredningar*” i stycket ”*Nordea Bank AB (publ)*” på sidan 283 i Grundprospektet är raderade och ersätts med följande:

”Inom ramverket för den normala verksamheten står Nordea-koncernen inför civilrättsliga domstolskrav och tvister, varav flertalet involverar relativt små belopp. Nordea-koncernen är involverad i flertalet krav, tvister, rättsprocesser och myndighetsutredningar i jurisdiktioner där koncernen är aktiv. Dessa typer av krav och rättsprocesser sätter Nordea-koncernen i risk för monetär skada, direkta eller indirekta skador (inklusive rättsliga kostnader), direkta eller indirekta finansiella förluster, civila och rättsliga påföljder, förlorade licenser eller tillstånd, eller nedsatt rykte, kritik eller sanktioner från övervakande myndigheter, liksom möjligheten för Nordea-koncernen att underkastas regulatoriska restriktioner i sin verksamhet. Per datumet för detta Grundprospekt är det ingen av de aktuella tvisterna som har, eller har haft, en väsentlig negativ inverkan på Nordea-koncernen eller dess finansiella ställning.

Övervakande myndigheter bedriver utredningar avseende Nordea-koncernens regulatoriska efterlevnad. Per datumet för detta Grundprospekt är Nordea-koncernen föremål för vissa pågående utredningar, vilket inkluderar utredningen av Nordea Bank Danmark A/S efterlevnad av tillämpliga lagregler om penningtvätt och de frågor som rör Panamadokumenten som diskuteras närmare nedan. Nordea-koncernen svarar också mot frågor som kommer från amerikanska myndigheter avseende dess historiska efterlevnad av vissa amerikanska finansiella sanktioner. Per datumet för detta Grundprospekt är resultatet av dessa utredningar, som kan komma att innebära kritik och sanktioner, ännu inte fastställt.

I april 2016 läckte de så kallade ”Panamadokumenten” ut, det vill säga de mer än 11,5 miljoner dokument som läckte ut till allmänheten från en advokatfirma i Panama. Panamadokumenten består främst av dokumentation rörande offshorebolag inrättade av en advokatfirma i Panama. Finansinspektionen och andra myndigheter på marknader där Nordea-koncernen bedriver sin verksamhet beslutade till följd av publiceringen av Panamadokumenten att begära in information som rör kunder med offshoreliknande strukturer och Nordea-koncernens roll i förhållande till dessa strukturer. Per datumet för detta Grundprospekt är dessa undersökningar i förstudiet och det är för tidigt att bedöma deras utgång.

Se även ”*Riskfaktorer- Risker som rör den Rättsliga och Regulatoriska Miljön i vilket Nordea-koncernen bedriver sin verksamhet – Rättsliga och regulatoriska krav uppkommer vid genomförandet av Nordea-koncernens verksamhet*.”

Efter publikationen av Panamadokumenten initierade Nordea dessutom en intern utredning för att utreda huruvida Nordea Bank S.A. i Luxemburg (”**Nordea Bank Luxembourg**”) hade följt interna och externa regler rörande aktiviteterna hänförliga till offshorestrukturer. Den 20 juli 2016 meddelade Nordea att internutredningen var färdigställt samt att utredningen hade presenterats för Nordeas styrelse. Nordea har dessutom delat med sig av internutredningens resultat till relevanta övervakande myndigheter. Nordea har beslutat om ett antal åtgärder för att ta itu med viktiga upptäckter och rekommendationer som givits i samband med utredningen. Dessa åtgärder inkluderar att integrera Nordea Bank Luxembourg i Nordea-koncernens nordiska organisation för att säkerställa en konsekvent implementering av efterlevnadsregler.

I juni 2015 undersökte den danska motsvarigheten till Finansinspektionen Nordea Bank Danmarks regelefterlevnad avseende penningtvätt. Den 17 juni 2016 meddelade Nordea att den danska motsvarigheten till Finansinspektionens utredning hade resulterat i kritik och att frågan kommer, i enlighet med dansk administrativ praxis, bli överlämnad till den danska polisen för vidare hantering och potentiella sanktioner.

Cash comprises legal tender and bank notes in foreign currencies. Balances with central banks consist of deposits in accounts with central banks and postal giro systems under government authority, where the following conditions are fulfilled:

- the central bank or the postal giro system is domiciled in the country where the institution is established.

- the balance on the account is readily available at any time.

Loans to credit institutions, payable on demand include liquid assets not represented by bonds or other interest-bearing securities.

Notes to the financial statements

Note 1 Accounting policies

The consolidated interim financial statements are presented in accordance with IAS 34 "Interim Financial Reporting". In addition, certain complementary rules in the Swedish Annual Accounts Act for Credit Institutions and Securities Companies (1995:1559), the accounting regulations of the Swedish Financial Supervisory Authority (FFFS 2008:25 including amendments) and the Supplementary Accounting Rules for Groups (RFR 1) from the Swedish Financial Reporting Board have been applied.

The same accounting policies and methods of computation are followed as compared to the Annual Report 2015, for more information see Note G1 in the Annual Report 2015. For changes implemented during 2016, see "Changed accounting policies" below.

Changed accounting policies

The following amendments published by the IASB were implemented 1 January 2016 but have not had any significant impact on Nordea's financial statements:

- Amendments to IFRS 11 "Accounting for Acquisitions of Interests in Joint Operations"
- IAS 1 "Disclosure Initiative"
- Amendments to IAS 16 and IAS 38 "Clarification of Acceptable Methods of Depreciation and Amortisation"
- Annual Improvements to IFRSs, 2012-2014 Cycle

Amendments have in addition been made in the Swedish Annual Accounts Act for Credit Institutions and Securities Companies (1995:1559) which have been implemented 1 January 2016. These amendments have not had any significant impact on Nordea's financial statements.

The Swedish Financial Supervisory Authority has amended the accounting regulation FFFS 2008:25 by issuing FFFS 2015:20. Those amendments were implemented by Nordea 1 January 2016 but have not had any significant impact on Nordea's financial statements.

The Swedish Financial Reporting Board has amended the accounting recommendation for groups by issuing "RFR 1 Supplementary Accounting Rules for Groups – January 2016". These changes were implemented by Nordea 1 January 2016 but have not had any significant impact on Nordea's financial statements.

Changed presentation of pooled schemes and unit-linked investment contracts

Nordea invests in interest-bearing securities and shares on behalf of customers, in pension pools and unit-linked investment contracts, where the customers bear the investment risk. Such assets have been reclassified to the separate balance sheet line "Assets in pooled schemes and unit-linked investment contracts" in order to disclose them separately from assets for which Nordea bears the investment risk. The corresponding liabilities to customers have been reclassified to the separate balance sheet line "Deposits in pooled schemes and unit-linked investment contracts" following that these liabilities behave differently than the normal deposits received from customers.

The comparable figures have been restated and the impact on the current and comparative periods can be found in the below table. The change in presentation has not had any impact on the income statement or equity.

Changed presentation of refinancing fees and pay-out fees

Refinancing fees and pay-out fees received in connection with mortgage lending in Denmark have been reclassified from "Net result from items at fair value" to "Net fee and commission income" in the income statement, in order to align with Nordea's classification policy for loan processing fees. A refinancing fee is charged when an adjustable rate mortgage loan is refinanced, and a pay-out fee when a loan is initially paid out. The comparable figures have been restated and the impact on the current and comparative periods can be found in the below table. The change in

presentation has not had any impact on the balance sheet or equity.

Changed presentation of stability fees

Nordea has, in order to align with local market practice, reclassified state guarantee fees from "Net fee and commission income" to "Net interest income". The comparable figures have been restated and the impact on the current and comparative periods can be found in the below table. The change in presentation has not had any impact on the balance sheet or equity.

Changed presentation of Net fee and commission income

The presentation within Note 3 "Net fee and commission income" has, in addition to the changes described above, been changed. The main change is that income and expenses have been set off to better reflect the net return from different business activities. Commission expenses have been split more granularly to better match the related commission income.

Commission income in connection with initial public offerings (IPOs) have in addition been reclassified from "Custody and issuer services" to "Brokerage, securities issues and corporate finance" (impact full year 2015 EUR 27m), and commission expenses connected to asset management activities from "Other" to "Asset management" (impact full year 2015 EUR 80m). These reclassifications have been made to better reflect the purpose of services performed/received.

Impact on capital adequacy from new or amended IFRS standards not yet applied

IFRS 9 "Financial instruments"

IASB has completed the new standard for financial instruments, IFRS 9 "Financial instruments". IFRS 9 covers classification and measurement, impairment and general hedging and replaces the current requirements covering these areas in IAS 39. IFRS 9 is effective as from annual periods beginning on or after 1 January 2018. Earlier application is permitted, but IFRS 9 is not yet endorsed by the EU commission. Nordea does not currently intend to early adopt the standard.

The changes in classification and measurement are not expected to have a significant impact on Nordea's income statement or balance sheet as the mixed measurement model will be maintained, and as there will still be a measurement category similar to the current Available For Sale (AFS) category in IAS 39. Significant reclassifications between fair value and amortised cost or impact on the capital adequacy and large exposures are not expected in the period of initial application, but this is naturally dependent on the financial instruments on Nordea's balance sheet at transition.

The impairment requirements in IFRS 9 are based on an expected loss model as opposed to the current incurred loss model in IAS 39. In general, it is expected that the new requirements will increase loan loss provisions, decrease equity and have a negative impact on capital adequacy, but no impact on large exposures, in the period of initial application. IFRS 9 requires all assets measured at amortised cost and fair value through other comprehensive income, as well as guarantees and loan commitments, to be included in the impairment test. Currently Nordea does not calculate collective provisions for off balance sheet exposures or the AFS portfolio. The assets to test for impairment will be divided into three groups depending on the stage of credit deterioration. Stage 1 includes assets where there has been no significant deterioration in credit risk, stage 2 includes assets where there has been a significant deterioration and stage 3 includes assets that have been individually assessed to be impaired. In stage 1, the provisions should equal the 12 month expected loss. In stage 2 and 3, the provisions should equal the lifetime expected losses. Nordea's current model for calculating collective provisions

Nordea

defines a loss event as a deterioration in rating/scoring, but it is not expected that the loss event in the current model will equal the trigger event for moving items from stage 1 to stage 2 under IFRS 9. Currently Nordea does not, in addition, hold any provisions for assets where there has been no deterioration in credit risk. For assets where there has been a significant deterioration in credit risk, Nordea currently holds provisions based on the losses estimated to occur during the period between the date when the loss event occurred and the date when the loss event is identified on an individual basis, the so called "Emergence period", while IFRS 9 will require provisions equal to the lifetime expected loss. This means total provisions will increase when IFRS 9 is implemented.

The main change to the general hedging requirements is that the standard aligns hedge accounting more closely with the risk management activities. As Nordea generally uses macro (portfolio) hedge accounting Nordea's assessment is that the new requirements will not have any significant impact on Nordea's financial statements, capital adequacy, or large exposures in the period of initial application.

Nordea has not yet finalised the impact assessment of the implementation of IFRS 9.

IFRS 15 "Revenue from Contracts with Customers"

The IASB has published the new standard IFRS 15 "Revenue from Contracts with Customers". The new standard outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition standards and interpretations within IFRS, such as IAS 18 "Revenue". The new standard is effective for annual periods beginning on or after 1 January 2018, with earlier application permitted. The

EU-commission is expected to endorse the standard during the third quarter 2016. Nordea does not currently intend to early adopt the standard. The standard does not apply to financial instruments, insurance contracts or lease contracts. Nordea has not finalised the investigation of the impact on the financial statements but the current assessment is that the new standard will not have any significant impact on Nordea's financial statements, capital adequacy, or large exposures in the period of initial application.

IFRS 16 "Leases"

The IASB has published the new standard IFRS 16 "Leases". The new standard changes the accounting requirements for lessees. All leases (except for short term- and small ticket leases) should be accounted for on the balance sheet of the lessee as a right to use the asset and a corresponding liability, and the lease payments should be recognised as amortisation and interest expense. The accounting requirements for lessors are unchanged. Additional disclosures are also required. The new standard is effective for annual periods beginning on or after 1 January 2019 and earlier application is permitted. The new standard is not yet endorsed by the EU-commission. Nordea does not currently intend to early adopt IFRS 16. Nordea's current assessment is that the new standard will change the accounting of property leases which mainly affects Nordea's balance sheet.

Other amendments to IFRS

Other amendments to IFRS are not assessed to have any significant impact on Nordea's financial statements, capital adequacy or large exposures in the period of initial application.

² Impact from plan exchange rates and internal allocation principles used in the segment reporting.

Measurement of operating segments' performance

The measurement principles and allocation between operating segments follow the information reported to the Chief Operating Decision Maker (CODM), as required by IFRS 8. In Nordea the CODM has been defined as Group Executive Management. The main differences compared to the section "Business areas" in this report are that the information for CODM is prepared using plan exchange rates and to that different allocation principles between operating segments have been applied.

Financial results are presented for the main business areas Retail Banking, Wholesale Banking and Wealth Management, with a further breakdown on operating segments, and the operating segment Group Corporate Centre. Other operating segments below the quantitative thresholds in IFRS 8 are included in Other operating segments. Group functions (and eliminations) as well as the result that is not fully allocated to any of the operating segments, are shown separately as reconciling items.

The determination of fair value is described in the Annual report 2015, Note G39 "Assets and liabilities at fair value". The fair value has for loans been estimated by discounting the expected future cash flows with an assumed customer interest rate that would have been used on the market if the loans had been issued at the time of the measurement. The assumed customer interest rate is calculated as the benchmark interest rate plus the average margin on new lending in Retail Banking and Wholesale Banking respectively.

¹All items are measured at fair value on a recurring basis at the end of each reporting period.

² Of which EUR 8,989m relates to the balance sheet item Financial instruments pledged as collateral.

³ For structured bonds the host contract and the embedded derivative are presented separately. The host contract is presented on the balance sheet as "Debt securities in issue" and the embedded derivative on the balance sheet as "Derivatives". The total fair value of the structured bonds is EUR 6,571m (EUR 6,825m), of which EUR 6,796m (EUR 6,881m) is categorised into Level 2 and a net positive fair value of EUR 225m (net positive fair value of EUR 56m) into Level 3 in the fair value hierarchy.

Determination of fair values for items measured at fair value on the balance sheet

For information about valuation techniques and inputs used in the fair value measurement, see the Annual report 2015, Note G39 "Assets and liabilities at fair value".

Transfers between Level 1 and 2

During the period, Nordea transferred interest-bearing securities (including such financial instruments pledged as collateral) of EUR 378m from Level 1 to Level 2 and EUR 188m from Level 2 to Level 1 of the fair value hierarchy. Nordea has also transferred shares of EUR 0m, derivative assets of EUR 61m, derivative liabilities of EUR 70m and other liabilities of EUR 2m from Level 2 to Level 1 and other liabilities of EUR 83m from Level 1 to Level 2.

The reason for the transfers from Level 1 to Level 2 was that the instruments ceased to be actively traded during the period and fair values have now been obtained using valuation techniques with observable market inputs. The reason for the transfer from Level 2 to Level 1 was that the instruments have again been actively traded during the period and reliable quoted prices are obtained in the market. Transfers between levels are considered to have occurred at the end of the reporting period.

Unrealised gains and losses relate to those assets and liabilities held at the end of the reporting period. The reason for the transfer from Level 3 to Level 2 was that observable market data became available. The reason for the transfer from Level 2 to Level 3 was that observable market data was no longer available. Transfers between levels are considered to have occurred at the end of the reporting period. Fair value gains and losses in the income statement during the period are included in "Net result from items at fair value". Assets and liabilities related to derivatives are presented net.

The valuation processes for fair value measurements in Level 3

For information about valuation processes for fair value measurement in Level 3, see the Annual report 2015 Note G39 "Assets and liabilities at fair value".

Deferred day 1 profit

The transaction price for financial instruments in some cases differs from the fair value at initial recognition measured using a valuation model, mainly due to that the transaction price is not established in an active market. If there are significant unobservable inputs used in the valuation technique (Level 3), the financial instrument is recognised at the transaction price and any difference between the transaction price and fair value at initial recognition measured using a valuation model (Day 1 profit) is deferred. For more information see the Annual report 2015 Note G1 "Accounting policies". The table below shows the aggregate difference yet to be recognised in the income statement at the beginning and end of the period and a reconciliation of how this aggregated difference has changed during the period (movement of deferred Day 1 profit).

¹ Investments in financial instruments is a major part of the life insurance business, acquired to fulfill the obligations behind the insurance- and investment contracts. The gains or losses on these instruments are almost exclusively allocated to policyholders and do consequently not affect Nordea's equity.

² Of which EUR 155m is priced at a credit spread (the difference between the discount rate and LIBOR) of 1.45% and a reasonable change of this credit spread would not affect the fair value due to callability features.

³ The fair values are based on prices and net asset values delivered by external suppliers/custodians. The prices are fixed by the suppliers/custodians on the basis of the development in assets behind the investments. For private equity funds the dominant measurement methodology used by the suppliers/custodians is consistent with the International Private Equity and Venture Capital Valuation (IPEV) guidelines issued by the EVCA (European Venture Capital Association). Less than 15% of the private equity fund investments are internally adjusted/valued based on the IPEV guidelines. These carrying amounts are in a range of 0% to 100% compared to the values received from suppliers/custodians.

⁴ The column "Range of fair value" shows the sensitivity of Level 3 financial instruments to changes in key assumptions. For more information see the Annual Report 2015, Note G39 "Assets and liabilities at fair value".

⁵ Of which EUR 21m related to assets in pooled schemes and unit-linked investment.

Note 12 Risks and uncertainties

Nordea's revenues base reflects the Group's business with a large and diversified customer base, comprising household customers, corporate customers and financial institutions, representing different geographic areas and industries.

Nordea's main risk exposure is credit risk. The Group also assumes risks such as market risk, liquidity risk, operational risk, compliance risk and life insurance risks. For further information on risk composition, see the Annual Report. None of the above exposures and risks is expected to have any significant adverse effect on the Group or its financial position in the medium term.

Within the framework of the normal business operations, the Group faces claims in civil lawsuits and other disputes, most of which involve relatively limited amounts. None of these disputes are considered likely to have any significant adverse effect on the Group or its financial position in the next six months.

This report is published in one additional language version, in Swedish. In the event of any inconsistencies between the Swedish language version and this English version, the English version shall prevail.

The information provided in this press release/report is such that Nordea is required to disclose pursuant to the Swedish Financial Instruments Trading Act (1991:980), the Swedish Securities Markets Act (2007:528) and/or Regulation (EU) No 596/2014 on market abuse.

This Interim report contains forward-looking statements that reflect management's current views with respect to certain future events and potential financial performance. Although Nordea believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. Accordingly, results could differ materially from those set out in the forward looking statements as a result of various factors. Important factors that may cause such a difference for Nordea include, but are not limited to: (i) the macroeconomic development, (ii) change in the competitive climate, (iii) change in the regulatory environment and other government actions and (iv) change in interest rate and foreign exchange rate levels. This Interim report does not imply that Nordea has undertaken to revise these forward-looking statements, beyond what is required by applicable law or applicable stock exchange regulations if and when circumstances arise that will lead to changes compared to the date when these statements were provided.

Report of Review of Interim Financial Information

Introduction

We have reviewed the condensed interim financial information of Nordea Bank AB (publ) as of 30 June 2016 and the six-month period then ended. The board of directors and the CEO are responsible for the preparation and presentation of the interim financial information in accordance with IAS 34 and the Swedish Annual Accounts Act for Credit Institutions and Securities Companies. Our responsibility is to express a conclusion on this half-year interim report based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, *Review of Interim Report Performed by the Independent Auditor of the Entity*. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, ISA, and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the half-year interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act for Credit Institutions and Securities Companies, regarding the Group, and with the Swedish Annual Accounts Act for Credit Institutions and Securities Companies, regarding the parent company.

| Total cash and cash equivalents | 55,473 | 45,574 | 39,870 |

Cash comprises legal tender and bank notes in foreign currencies. Balances with central banks consist of deposits in accounts with central banks and postal giro systems under government authority, where the following conditions are fulfilled:

- the central bank or the postal giro system is domiciled in the country where the institution is established
- the balance on the account is readily available at any time.

Loans to credit institutions, payable on demand include liquid assets not represented by bonds or other interest-bearing securities.

Notes to the financial statements

Note 1 Accounting policies

NBF's consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as endorsed by the EU Commission. In addition, certain rules in the Finnish Accounting Act, the Finnish Credit Institutions Act, the Financial Supervisory Authority's regulations and guidelines and the Decree of the Ministry of Finance on the financial statements and consolidated financial statements of credit institutions, have also been applied.

These statements are presented in accordance with IAS 34 "Interim Financial Reporting". The interim report is unaudited.

Changed accounting policies

The accounting policies, basis for calculations and presentation are, in all material aspects, unchanged in comparison with the 2015 Annual Report.

The following amendments published by the IASB were implemented 1 January 2016 but have not had any significant impact on Nordea's financial statements:

- Amendments to IFRS 11 "Accounting for Acquisitions of Interests in Joint Operations"
- IAS 1 "Disclosure Initiative"
- Amendments to IAS 16 and IAS 38 "Clarification of Acceptable Methods of Depreciation and Amortisation"
- Annual Improvements to IFRSs, 2012-2014 Cycle.

Changed presentation of resolution fees

Nordea has, in order to align with local market practice, reclassified resolution fees from "Net fee and commission income" to "Net interest income". The comparable figures have been restated and the impact on the current and comparative periods can be found in the table below. The change in presentation has not had any impact on the balance sheet or equity.

Changed presentation of Net fee and commission income

The presentation within Note 3 "Net fee and commission income" has, in addition to the changes described above, been changed. The main change is that income and expenses have been set off to better reflect the net return from different business activities. Commission expenses have been split more granularly to better match the related commission income.

Commission income in connection with initial public offerings (IPOs) have in addition been reclassified from "Custody and issuer services" to "Brokerage, securities issues and corporate finance" (impact full year 2015 EUR 4m). This reclassification has been made to better reflect the purpose of services performed/ received.

Impact on capital adequacy from new or amended IFRS standards not yet applied IFRS 9 "Financial instruments"

IASB has completed the new standard for financial instruments, IFRS 9 "Financial instruments". IFRS 9 covers classification and measurement, impairment and general hedging and replaces the current requirements covering these areas in IAS 39. IFRS 9 is effective as from annual periods beginning on or after 1 January 2018. Earlier application is permitted, but IFRS 9 is not yet endorsed by the EU commission. Nordea does not currently intend to early adopt the standard.

The changes in classification and measurement are not expected to have a significant impact on Nordea's income statement or balance sheet as the mixed measurement model will be maintained, and as there will still be a measurement category similar to the current Available For Sale (AFS) category in IAS 39.

Significant reclassifications between fair value and amortised cost or impact on the capital adequacy and large exposures are not expected in the period of initial application, but this is naturally dependent on the financial instruments on Nordea's balance sheet at transition.

The impairment requirements in IFRS 9 are based on an expected loss model as opposed to the current incurred loss model in IAS 39. In general, it is expected that the new requirements will increase loan loss provisions, decrease equity and have a negative impact on capital adequacy, but no impact on large exposures, in the period of initial application. IFRS 9 requires all assets measured at amortised cost and fair value through other comprehensive income, as well as guarantees and loan commitments, to be included in the impairment test. Currently Nordea does not calculate collective provisions for off balance sheet exposures or the AFS portfolio. The assets to test for impairment will be divided into three groups depending on the stage of credit deterioration. Stage 1 includes assets where there has been no significant deterioration in credit risk, stage 2 includes assets where there has been a significant deterioration and stage 3 includes assets that have been individually assessed to be impaired. In stage 1, the provisions should equal the 12 month expected loss. In stage 2 and 3, the provisions should equal the lifetime expected losses. Nordea's current model for calculating collective provisions defines a loss event as a deterioration in rating/scoring, but it is not expected that the loss event in the current model will equal the trigger event for moving items from stage 1 to stage 2 under IFRS 9. Currently Nordea does not, in addition, hold any provisions for assets where there has been no deterioration in credit risk. For assets where there has been a significant deterioration in credit risk, Nordea currently holds provisions based on the losses estimated to occur during the period between the date when the loss event occurred and the date when the loss event is identified on an individual basis, the so called "Emergence period", while IFRS 9 will require provisions equal to the lifetime expected loss. This means total provisions will increase when IFRS 9 is implemented.

The main change to the general hedging requirements is that the standard aligns hedge accounting more closely with the risk management activities. As Nordea generally uses macro (portfolio) hedge accounting Nordea's assessment is that the new requirements will

not have any significant impact on Nordea's financial statements, capital adequacy, or large exposures in the period of initial application.

Nordea has not yet finalised the impact assessment of the implementation of IFRS 9.

IFRS 15 "Revenue from Contracts with Customers"

The IASB has published the new standard, IFRS 15 "Revenue from Contracts with Customers". The new standard outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition standards and interpretations within IFRS, such as IAS 18 "Revenue". The new standard is effective for annual periods beginning on or after 1 January 2018, with earlier application permitted. The EU-commission is expected to endorse the standard during the third quarter 2016. Nordea does not currently intend to early adopt the standard. The standard does not apply to financial instruments, insurance contracts or lease contracts. Nordea has not finalised the investigation of the impact on the financial statements but the current assessment is that the new standard will not have any significant impact on Nordea's financial statements, capital adequacy, or large exposures in the period of initial application.

IFRS 16 "Leases"

The IASB has published the new standard, IFRS 16 "Leases". The new standard changes the accounting requirements for lessees. All leases (except for short term- and small ticket leases) should be accounted for on the balance sheet of the lessee as a right to use the asset and a corresponding liability, and the lease payments should be recognised as amortisation and interest expense. The accounting requirements for lessors are unchanged. Additional disclosures are also required. The new standard is effective for annual periods beginning on or after 1 January 2019 and earlier application is permitted. The new standard is not yet endorsed by the EU-commission. Nordea does not currently intend to early adopt IFRS 16. Nordea's current assessment is that the new standard will change the accounting of property leases which mainly affects Nordea's balance sheet.

Other amendments to IFRS

Other amendments to IFRS are not assessed to have any significant impact on Nordea's financial statements, capital adequacy or large exposures in the period of initial application.

The determination of fair value is described in the Annual Report 2015, Note 39 "Assets and liabilities at fair value". The fair value for loans has been estimated by discounting the expected future cash flows with an assumed customer interest rate that would have been used on the market if the loans had been issued at the time of the measurement. The assumed customer interest rate is calculated as the benchmark interest rate plus the average margin on new lending in Retail Banking and Wholesale Banking respectively.

² For structured bonds the host contract and the embedded derivative are presented separately. The host contract is presented on the balance sheet as “Debt securities in issue” and the embedded derivative on the balance sheet as “Derivatives”. The total fair value of the structured bonds is EUR 6,944m (EUR 7,949m), of which EUR 7,169m (EUR 7,610m) is categorised into Level 2 and a net negative fair value of EUR -225m (net positive fair value of EUR 339m) into Level 3 in the fair value hierarchy.

Determination of fair values for items measured at fair value on the balance sheet

“Nordea incorporates credit valuation adjustments (CVA) and debit valuation adjustments (DVA) into derivative valuations. CVA and DVA reflect the impact on fair value of the counterparty’s credit risk and Nordea’s own credit quality, respectively.

Calculations are based on estimates of exposure at default, probability of default and recovery rates, on a counterparty basis.

Generally, exposure at default for CVA and DVA is based on expected exposure and estimated through the simulation of underlying risk factors. Where possible, probabilities of defaults (PDs) and recovery rates are sourced from the CDS markets. For counterparties where this information is not directly available, PDs and recovery rates are estimated using a cross sectional approach where the illiquid counterparties are mapped to comparable liquid CDS names.

The impact of funding costs and funding benefits on valuation of uncollateralised and imperfectly collateralised derivatives is recognised as a funding fair valuation adjustment (FFVA). In 2015 Nordea has developed its FFVA framework to incorporate an estimated funding curve which reflects the market cost of funding. Since FFVA is a newly developing market practice, Nordea is continuously monitoring the market practices, and consequently reviewing and developing the methodology in use.

For more information about valuation techniques and inputs in the fair value measurement, see the Annual Report 2015, Note 39 “Assets and liabilities at fair value”.

Transfers between Level 1 and 2

During the period, NBF transferred interest-bearing securities (including such financial instruments pledged as collateral) of EUR 147m from Level 1 to Level 2 and EUR 80m from Level 2 to Level 1 of the fair value hierarchy. NBF also transferred derivative assets of EUR 61m from Level 2 to Level 1 and derivative liabilities EUR 72m from Level 2 to Level 1. The reason for the transfers from Level 1 to Level 2 was that the instruments ceased to be actively traded during the period and fair values have now been obtained using valuation techniques with observable market inputs. The reason for the transfer from Level 2 to Level 1 was that the instruments have again been actively traded during the period and reliable quoted prices are obtained in the market. Transfers have also occurred following the implementation of an improved and more granular classification approach. Transfers between levels are considered to have occurred at the end of the reporting period.

Unrealised gains and losses relate to those assets and liabilities held at the end of the reporting period. During the period NBF transferred interest-bearing securities of EUR 22m from level 3 to level 2. During the period NBF transferred also derivatives (net) of EUR 40m from Level 2 to Level 3 and EUR 84m from Level 3 to Level 2. The reason for the transfer from Level 3 to Level 2 was that observable market data became available. The reason for the transfer from Level 2 to Level 3 was that observable market data was no longer available. Transfers between levels are considered to have occurred at the end of the reporting period. Fair value gains and losses in the income statement during the period are included in "Net result from items at fair value". Assets and liabilities related to derivatives are presented net.

The valuation processes for fair value measurements in Level 3

For information about valuation processes for fair value measurement in Level 3, see the Annual Report 2015 Note 39 "Assets and liabilities at fair value".

Deferred day 1 profit

The transaction price for financial instruments in some cases differs from the fair value at initial recognition measured using a valuation model, mainly due to that the transaction price is not established in an active market. If there are significant unobservable inputs used in the valuation technique (Level 3), the financial instrument is recognised at the transaction price and any difference between the transaction price and fair value at initial recognition measured using a valuation model (Day 1 profit) is deferred. For more information see the Annual Report 2015 Note 1 "Accounting policies". The table below shows the aggregate difference yet to be recognised in the income statement at the beginning and end of the period and a reconciliation of how this aggregated difference has changed during the period (movement of deferred Day 1 profit).

APPENDIX 1

SUMMARY OF THE BASE PROSPECTUS

Summaries are made up of disclosure requirements known as "Elements". These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and these Issuers. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and relevant Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "Not Applicable".

In particular Elements in italics denote placeholders for completing the issue specific summary relating to a Tranche of Instruments for which such issue specific summary is to be prepared.

Words and expressions defined in the sections entitled "Terms and Conditions of the Instruments" or elsewhere in this Base Prospectus have the same meanings in this summary.

| Section A – Introduction and Warnings | | |
|--|----------------------|--|
| A.1 | Introduction: | <p><i>This summary should be read as an introduction to this Base Prospectus and any decision to invest in the Instruments should be based on a consideration of the Base Prospectus as a whole by the investor. Where a claim relating to the information contained in this Base Prospectus is brought before a court in a Member State of the European Economic Area, the plaintiff may, under the national legislation of the Member States, be required to bear the costs of translating the Base Prospectus before the legal proceedings are initiated. No civil liability will attach to the Issuers in any such Member State solely on the basis of this summary, including any translation thereof, unless it is misleading, inaccurate or inconsistent when read together with the other parts of this Base Prospectus or it does not provide, when read together with the other parts of this Base Prospectus, key information in order to aid investors when considering whether to invest in the Instruments.</i></p> |
| A.2 | Consent: | <p><i>Instruments may be offered in circumstances where there is no exemption from the obligation under the Prospectus Directive to publish a prospectus. Any such offer is referred to as a "Public Offer".</i></p> <p><i>The Issuer consents to the use of this Base Prospectus in connection with a Public Offer of the Instruments by any financial intermediary which is authorised to make such offers under the Markets in Financial Instruments Directive (Directive 2004/39/EC) (an "Authorised Offeror") on the following basis: (a) the relevant Public Offer must occur during the period from and including [•] to but excluding [•] (the "Offer Period") in [•] [and [•]] (the "Public Offer Jurisdiction(s)") and (b) the relevant Authorised Offeror must have agreed to the Authorised Offeror Terms [and satisfy the following additional conditions: [•]]. The Issuer consents to the use of this Base Prospectus in connection with a Public Offer of the Instruments by [•] (an "Authorised Offeror") on the following basis: (a) the relevant Public Offer must occur during the period from and including [•] to but excluding [•] (the "Offer Period") in [•] [and [•]] (the "Public Offer Jurisdiction(s)") and (b) the relevant Authorised Offeror must have agreed to the Authorised Offeror Terms [and satisfy the following additional conditions: [•]].</i></p> |

| | | |
|-------------|--|--|
| | | Authorised Offerors will provide information to an Investor on the terms and conditions of the Public Offer of the relevant Instruments at the time such Public Offer is made by the Authorised Offeror to the Investor. |

| | <p><i>The Instruments are unlisted Instruments/Application will be made for the Instruments to be admitted to listing on [•] and to trading on [•] effective as of [•].</i></p> | |
| C.15 | Value of the Instruments and Value of the Underlying: | <p>Instruments and underlying assets: The Instruments comprise securities in the form of warrants or certificates ("Instruments"). The value of the Instruments will be determined in light of the value of the underlying assets and the performance, interest and yield structure(s) applicable to the Instruments.</p> <p>The Underlying Asset(s) is/are: [share] [index] [depository receipt] [bond] [exchange rate] [commodity] [fund] [interest rate] [basket] [futures contract].</p> <p>Warrants: A warrant is a financial instrument which provides investors with exposure to a particular underlying asset, e.g. a security or an index. Warrants can also be issued as Turbo Warrants, Market Warrants or MINI Futures, as described in greater detail below.</p> <p>The structure of warrants is such that the performance of the underlying asset affects the value of the warrants and may lead to greater profits or losses on the invested capital than if the investment had been made directly in the underlying asset.</p> <p>The manner in which the Settlement Amount is calculated may differ for each warrant series. However, the following provisions are generally applicable:</p> <ul style="list-style-type: none"> (i) With respect to Call Warrants, the value of the warrant on the expiration date is determined by the amount by which the price of the underlying asset exceeds the strike price for the warrant. An investor who purchases Call Warrants speculates on an increase in value of the underlying asset. (ii) With respect to Put Warrants, the value of the warrant on the expiration date is determined by the amount by which the price of the underlying asset is less than the strike price for the warrant. An investor who purchases Put Warrants speculates on a fall in the value of the underlying asset. <p>If an underlying asset becomes worthless, (for example, because the company which issued the underlying share has gone into bankruptcy), or if it does not show a sufficiently favourable performance (which can be positive or negative), the warrant will also become worthless and anyone who invested in the warrant will lose the entire capital invested.</p> |
| | | <p>Turbo Warrants are warrants that also include a barrier level, meaning that "Turbo Call Warrants" expire immediately if the underlying asset is listed at, or below, the barrier level, while "Turbo Put Warrants" expire immediately if the underlying asset is listed at, or above, the barrier level. In the event of the early expiration of Turbo Warrants, any Settlement Amount is paid out and the Turbo Warrant ceases to remain outstanding.</p> <p>MINI Futures are similar to Turbo Warrants but normally have a non-predetermined expiration date and a barrier which is structured differently to the barrier for a Turbo Warrant.</p> |

| Section C – The Instruments | |
|-----------------------------|--|
| | <p>Market Warrants are warrants which are issued as a primary markets transaction and often include an underlying amount which constitutes the basis for calculating any yield. Market Warrants may also include performance structures corresponding to those which otherwise relate to Certificates in accordance with the provisions below. In such a case, an investor in the warrant may lose all or part of the invested capital. Market Warrants may entitle the investor to redeem or receive the yield on the expiration date (European type), but may also be structured similarly to an American option, where the investor is entitled to request exercise during the term of the warrant.</p> <p>Certificates: Certificates are financial instruments which provide the investor with exposure to a particular underlying asset. Underlying assets can consist of, <i>inter alia</i>, shares or share indices, as well as other assets such as interest rates, currencies, commodities or a combination of such assets and baskets of such assets. In order to give a Certificate a specific yield profile a number of definitions are used. A Certificate is an instrument without principal-protection, and accordingly an investor may lose all or part of the principal invested.</p> <p><i>The Instruments are: [Call/Put Warrants/Turbo Warrants/Mini Futures/Market Warrants/Certificates]</i></p> <p>Performance structures: The performance structures which may be used for Certificates, Warrants and Market Warrants include, <i>inter alia</i>, the following:</p> <p>"Base"- structures– The Base structure for calculating the performance of an Instrument is dependent on the change between the initial price and final price for one or more underlying assets. In order to reduce the risk that temporary fluctuations in value might result in a misleading calculation basis when calculating the final value of an Instrument, the final value is often determined as the average value of the underlying assets or benchmarks on a number of measurement dates during a determined period of time. However, there may be only one measurement date for a value of a benchmark during a determined period of time.</p> <p>"Max" structure – The max structure is based on the base structure but contains a predetermined maximum yield, i.e. a cap on the yield. The investor receives either the maximum yield or a yield which reflects the performance of the underlying asset, whichever is lower. If the performance of the reference asset exceeds the predetermined maximum yield, the investor receives an amount corresponding to the maximum yield.</p> <p>"Barrier" structure – This structure includes a fixed price which replaces the final price in the event the final price of the underlying asset reaches and/or exceeds a price cap or is less than a price floor.</p> |
| | <p>"Digital" structure – The yield in a digital structure depends on the relationship between value of an underlying asset and a specific predetermined level on the closing day.</p> <p>"Binary" structure – The yield in a binary structure depends on the relationship between the value of an underlying asset and a predetermined level during the entire term of the Instrument.</p> <p>"Leverage" structure – A leverage structure usually means that the value of the instrument follows the leverage proportionally to an underlying asset. The structure can be combined with, among other things, a barrier or a cap.</p> |

| Section C – The Instruments | | |
|-----------------------------|---|--|
| | | <p>"Constant leverage" structure – A constant leverage structure is a structure where the exposure to an underlying asset during a defined time period (e.g. one day) generates a yield which is X times larger compared with the underlying asset. The constant leverage can be both positive and negative and the structure is often combined with, for example, a barrier.</p> <p>The above performance structures represent a selection of the most common structures. The structures can be combined, varied and used in their entirety or only partly. Other performance structures may also be applicable.</p> <p><i>The applicable performance structure(s) is/are [].</i></p> <p>Participation rate: The structure of the Instruments may contain a participation rate which is used to determine the exposure to the relevant underlying asset(s), i.e. the proportion of any change in value which accrues to the investor in each individual Instrument. The participation rate is determined by the relevant Issuer and established through, among other things, term to maturity, volatility, market interest rates and the anticipated yield on an underlying asset.</p> <p><i>The [indicative] Participation Rate is: []</i></p> <p>Certain yield structures:</p> <p>One or more of the following certain yield structures may be applicable to Certificates, Warrants and Market Warrants.</p> <p>"Cap/Floor", "Capped Floor Float", "Compounding Floater", "Range Accrual", "Digital Long", "Digital Short", "Basket Long", "Basket Short", "Autocall coupon", "Max component", "Currency component – Basket" and "Currency component –Underlying Asset".</p> <p><i>The yield structure(s) applicable to the Instruments is/ are: [•]/[Not applicable]</i></p> |
| C.16 | Exercise Date or Final Reference Date: | <p>Subject to early redemption, the Settlement Date will be the maturity date of the Instruments, except in the case of open-ended Instruments which have no fixed Settlement Date.</p> <p><i>The Settlement Date is: [•]/Not Applicable</i></p> |
| C.17 | Settlement Procedure: | <p>Automatic exercise shall take place in respect of all Instruments by way of cash settlement, meaning that where an Instrument carries an entitlement to a Settlement Amount on the Settlement Date, the relevant Issuer shall pay the holder in cash. Instruments do not entitle the holder to receive any underlying assets.</p> |
| | | <p>Settlement of Instruments registered with VP shall take place in accordance with the VP rulebook; settlement of Instruments registered with VPS shall take place in accordance with the VPS rulebook; settlement of Instruments registered with Euroclear Sweden shall take place in accordance with Euroclear Sweden's rulebook; and settlement of Instruments registered with Euroclear Finland shall take place in accordance with Euroclear Finland's rulebook.</p> |

| Section C – The Instruments | | |

| | | <p>Settlement of any Instruments that are represented by a Global Instrument shall take place on the relevant payment date and will be effected by the relevant Issuer paying the applicable amounts of principal and/or interest to the Registrar for onward transmission to Euroclear and Clearstream, Luxembourg. Investors will receive their redemption monies through their accounts in Euroclear and Clearstream, Luxembourg in accordance with the standard settlement procedures of Euroclear and Clearstream, Luxembourg.</p> <p>In respect of Instruments that are in definitive form, payment of the Settlement Amount will be made against presentation and surrender of the individual Instrument at the specified office of the registrar.</p> <p><i>Settlement of Instruments shall take place: in accordance with the procedures of [VP/VPS/Euroclear Sweden/Euroclear Finland/Euroclear and Clearstream, Luxembourg]</i></p> |
| C.18 | The Return: | <p>The return or Settlement Amount payable to the Investors will be determined by reference to the performance of the underlying assets within a particular performance structure applicable to the Instruments. One or several coupons may also be payable, in addition to the Settlement Amount. Details of the various performance structures and certain yield structures are set out in section C.15.</p> <p><i>Details of the applicable interest and performance structure(s) and the return on the Instruments are set out in section C.15.</i></p> |
| C.19 | Exercise Price or Final Reference Price: | <p>The final value of the relevant underlying asset(s) will affect the Settlement amount to be paid to Investors. The final value will be determined on the applicable Valuation Date(s).</p> <p><i>[The final value of the underlying asset will be calculated as [closing day price]/[average closing prices] published by [•] on each of [•], [•] and [•].]</i></p> |
| C.20 | Type of Underlying: | <p>Underlying assets may be comprised of, or constitute a combination of, the following: shares, depository receipts, bonds, commodities, interest rates, exchange rates, forward contracts, futures contracts, funds, indices or a basket of assets. The performance of the underlying asset(s) affects the value and possible yield on the warrant or certificate.</p> <p><i>The type of underlying asset(s) is/are: [].</i></p> |

| Section D - Risks | |
|-------------------|--|
| D.2 | <p>Risks Specific to the Issuer:</p> <p>In purchasing Instruments, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Instruments. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Instruments. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the relevant Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the relevant Issuer's control. The Issuers have identified in the Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the Instruments. These factors include:</p> <p><i>Risks relating to current macroeconomic conditions</i></p> <p>Risks related to the European economic crisis have had and, despite the recent period of moderate stabilisation, may continue to have, a negative impact on global economic activity and the financial markets. If these conditions continue to persist, or should there be any further turbulence in these or other markets, this could have a material adverse effect on the Nordea Group's ability to access capital and liquidity on financial terms acceptable to the Nordea Group.</p> <p>Furthermore, the Nordea Group's performance is significantly influenced by the general economic condition in the countries in which it operates, in particular the Nordic markets (Denmark, Finland, Norway and Sweden). Negative economic developments and conditions in the markets in which it operates can adversely affect its business, financial condition and results of operations, and measures implemented by the Nordea Group might not be satisfactory to reduce any credit, market and liquidity risks.</p> <p><i>Risks relating to the Nordea Group's credit portfolio</i></p> <p>Adverse changes in the credit quality of the Nordea Group's borrowers and counterparties or a decrease in collateral values are likely to affect the recoverability and value of the Nordea Group's assets and require an increase in its individual provisions and potentially in collective provisions for impaired loans. A significant increase in the size of the Nordea Group's allowance for loan losses and loan losses not covered by allowances would have a material adverse effect on the Nordea Group's business, financial condition and results of operations.</p> <p>The Nordea Group is exposed to counterparty credit risk, settlement risk and transfer risk on transactions executed in the financial services industry and its transactions in financial instruments. If counterparties default on their obligations, this could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.</p> <p><i>Risks relating to market exposure</i></p> <p>The value of financial instruments held by Nordea Group is sensitive to volatility of and correlations between various market variables, including interest rates, credit spreads, equity prices and foreign exchange rates. Write-downs or realise impairment charges may have a material adverse effect on the Nordea Group's business, financial condition and results of operations, while the performance of financial markets and volatile market conditions could result in a significant decline in the Nordea Group's trading and investment income, or result in a trading loss.</p> |

| Section C – The Instruments | |
|-----------------------------|--|
| | <p><i>The Nordea Group is exposed to structural market risk</i></p> <p>The Nordea Group is exposed to structural interest income risk when there is a mismatch between the interest rate re-pricing periods, volumes or reference rates of its assets, liabilities and derivatives. It is also exposed to currency translation risk primarily as a result of its Swedish and Norwegian banking businesses, as it prepares its consolidated financial statements in its functional currency, the euro. Any mismatch in any given period in the event of changes in interest rates, or failure to successfully hedge currency risk exposure, could have a material adverse effect on the Nordea Group's financial condition and results of operations.</p> <p><i>Risks relating to liquidity and capital requirements</i></p> <p>A substantial part of the Nordea Group's liquidity and funding requirements is met through reliance on customer deposits, as well as ongoing access to wholesale lending markets, including issuance of long-term debt market instruments such as covered bonds. Turbulence in the global financial markets and economy may adversely affect the Nordea Group's liquidity and the willingness of certain counterparties and customers to do business with the Nordea Group.</p> <p>The Nordea Group's business performance could be affected if the capital adequacy ratios it is required to maintain under the legislative package comprising Directive 2013/36/EU, Regulation (EU) No. 575/2013 and any regulatory capital rules or regulations, or other requirements, which are applicable to the Issuers or the Nordea Group and which prescribe (alone or in conjunction with any other rules or regulations) the requirements to be fulfilled by financial instruments for their inclusion in the regulatory capital of the Issuers or the Nordea Group (on a solo or consolidated basis, as the case may be) to the extent required by Directive 2013/36/EU or Regulation (EU) No. 575/2013, including for the avoidance of doubt any regulatory technical standards released by the European Banking Authority (or any successor or replacement thereof) ("CRD IV") are reduced or perceived to be inadequate.</p> <p>The Nordea Group's funding costs and its access to the debt capital markets depend significantly on its credit ratings. A reduction in credit ratings could adversely affect the Nordea Group's access to liquidity and its competitive position, and therefore, have a material adverse effect on its business, financial condition and results of operations.</p> <p><i>Other risks relating to the Nordea Group's business</i></p> <p>The Nordea Group's business operations are dependent on the ability to process a large number of complex transactions across different markets in many currencies and operations are carried out through a number of entities. Although the Nordea Group has implemented risk controls and taken other actions to mitigate exposures and/or losses, there can be no assurances that such procedures will be effective in controlling each of the operational risks faced by the Nordea Group, or that the Nordea Group's reputation will not be damaged by the occurrence of any operational risks.</p> <p>The Nordea Group's operations in Russia and the Baltic countries which are typically more volatile and less developed economically and politically than markets in Western Europe and North America – present various risks that do not apply, or apply to a lesser degree, to its businesses in the Nordic markets. Additionally, some of these markets are typically more volatile and less developed economically and politically than markets in Western</p> |

| Section C – The Instruments | | |
|-----------------------------|--|---|
| | | Europe and North America. |
| | | <p>The Nordea Group's performance is, to a large extent, dependent on the talents and efforts of highly skilled individuals, and the continued ability of the Nordea Group to compete effectively and implement its strategy depends on its ability to attract new employees and retain and motivate existing employees. New regulatory restrictions, such as the recently introduced limits on certain types of remuneration paid by credit institutions and investment firms set forth in CRD IV, could adversely affect the Nordea Group's ability to attract new employees and retain and motivate existing employees. Any loss of the services of key employees, particularly to competitors, or the inability to attract and retain highly skilled personnel in the future could have an adverse effect on the Nordea Group's business.</p> <p>There is competition for the types of banking and other products and services that the Nordea Group provides and there can be no assurances that the Nordea Group can maintain its competitive position.</p> <p><i>Risks relating to proposed cross-border subsidiary mergers</i></p> <p>The Nordea Group has announced the proposed merger of each of Nordea Bank Danmark A/S, NBF and Nordea Bank Norge ASA into Nordea Bank AB. The proposed mergers are subject to certain risks and uncertainties, including the inability of NBAB to obtain the necessary regulatory approvals or satisfactory outcomes of the discussions with regulators and authorities, including the local financial supervisory authorities and tax authorities. Any delay in obtaining the required approvals may also postpone the execution of the proposed mergers and failure to consummate the proposed mergers could result in the Nordea Group not obtaining the anticipated benefits of the mergers.</p> <p><i>Risks relating to the legal and regulatory environments in which the Nordea Group operates</i></p> <p>The Nordea Group is subject to substantial regulation and oversight by a number of different regulators as well as laws and regulations, administrative actions and policies in each of the jurisdictions in which it operates, all of which are subject to change, and compliance with which may from time to time require significant costs.</p> <p>The Nordea Group may incur substantial costs in monitoring and complying with new capital adequacy and recovery and resolution framework requirements, which may also impact existing business models. In addition, there can also be no assurances that breaches of legislation or regulations by the Nordea Group will not occur and, to the extent that such a breach does occur, that significant liability or penalties will not be incurred.</p> <p>In the ordinary course of its business, the Nordea Group is subject to regulatory oversight and liability risk and is involved in a variety of claims, disputes, legal proceedings and governmental investigations in jurisdictions where it is active. These types of claims and proceedings expose the Nordea Group to monetary damages, direct or indirect costs (including legal costs), direct or indirect financial loss, civil and criminal penalties, loss of licences or authorisations, or loss of reputation, criticism or penalties by supervisory authorities as well as the potential for regulatory restrictions on its businesses.</p> |

| Section C – The Instruments | |
|-----------------------------|---|
| | <p>The Nordea Group's activities are subject to tax at various rates around the world computed in accordance with local legislation and practice. Legislative changes or decisions by tax authorities may impair the present or previous tax position of the Nordea Group.</p> <p>Changes in the accounting policies or accounting standards applicable to the Nordea Group could also materially affect how it reports its financial condition and results of operations.</p> |
| D.6 | <p>Risk Warning: This summary of risks represents only a brief description of certain important risks and does not constitute a full account of the risk factors pertaining to the Instruments. The investor should carefully study and consider these risks as well as other information provided in the Base Prospectus. Some of the risks are related to circumstances beyond the Issuers' control, such as the existence of an effective secondary market, the stability of the relevant clearing and settlement system, as well as the macro economic situation in the Nordic economies and the world at large.</p> <p>Complexity of the product – The yield structure for the Instruments is sometimes complex and may contain mathematical formulae or relationships which, for an investor, may be difficult to understand and compare with other investment alternatives. It should be noted that the relationship between yield and risk may be difficult to assess.</p> <p>Pricing of Instruments – The pricing of Instruments is usually determined by the relevant Issuer, and not on the basis of negotiated terms. There may, therefore, be a conflict of interest between the relevant Issuer and the investors inasmuch as the extent that the relevant Issuer can influence the pricing and attempt to generate a profit or avoid a loss in relation to the underlying assets. The relevant Issuer is under no obligation to act in the interests of the holders.</p> <p>Performance of the underlying assets – With Instruments, the holders are entitled to yield and payment of any applicable settlement amount, depending on the performance of one or more underlying assets and the applicable yield structure. The performance of the Instruments is affected by the value of the underlying assets at specific points in time during the term of the Instruments, the intensity of fluctuations in the prices of the underlying assets, expectations regarding future volatility, market interest rates, and expected dividends on the underlying assets. In some circumstances the investor may lose all of their investment amount.</p> <p>[Currency fluctuations – In those cases where the underlying asset is listed in a currency other than investor's currency, exchange rate fluctuations may affect the yield on the Instruments. Exchange rates for foreign currencies may be affected by complex political and economic factors, including the relative rate of inflation, the balance of payments between countries, the size of the government budget surplus or deficit, and the monetary, tax and/or trade policies adopted by the relevant currencies' governments. Currency fluctuations can affect the value or level of the underlying assets in complex ways. If such currency fluctuations cause the value or level of the underlying assets to vary, the value or level of the Instruments may fall. If the value or level of one or more underlying asset is issued in a currency other than the currency in which the Instrument is issued, investors may be exposed to an increased risk associated with foreign currency exchange rates. Previous exchange rates do not necessarily serve as indications of future exchange rates for foreign currencies.]</p> |

| Section C – The Instruments | |
|-----------------------------|--|
| | <p>[Shares as underlying assets – Share-linked instruments are not sponsored or promoted by the issuer of the shares. Accordingly, the issuer of the shares has no obligation to take into account the interests of investors in the Instruments and thus the actions of such share issuer might negatively affect the market value of the Instruments.</p> <p>An investor in the Instruments is not entitled to receive any payments or other dividends to which a direct owner of the underlying shares would otherwise be entitled.]</p> <p>[Indices as underlying assets – Investors in instruments which are based on an index as underlying asset may, upon exercise of such Instruments, receive a lower payment than if he or she had invested directly in the shares/assets that comprise the Index. The sponsor of any index may add, remove, or replace components or make methodological changes which may affect the level of such index and hence the return which is to be paid to investors in the Instruments. The Nordea Group may also participate in creating, structuring and maintaining index portfolios or strategies and for which it may act as Index Sponsor (collectively, "Proprietary Indices"). The Issuers may therefore face conflicts of interest between their obligations as the Issuer of such Instruments and their role (or the role of its affiliates) as the composers, promoters, designers or administrators of such indices.]</p> <p>[Commodities as underlying assets – Trading in commodities is speculative and may be extremely volatile as commodity prices are affected by factors that are unpredictable, such as changes in the relationship between supply and demand, weather patterns and government policies. Commodity contracts may also be traded directly between market participants over-the-counter on trading facilities which are subject to minimal or no substantive regulation. This increases the risks relating to the liquidity and price histories of the relevant contracts. Instruments that are linked to commodity future contracts may provide a different return than Instruments linked to the relevant physical commodity, as the price of a futures contract on a commodity will generally be at a premium or at a discount compared with the spot price of the underlying commodity.]</p> <p>[Exposure to a basket of underlying assets – where the underlying asset for an Instrument comprises a basket of underlying assets, the investors bear the risk with respect to the performance of each of the basket constituents. Where there is a high level of interdependence between the individual basket constituents, any change in the performance of the basket constituents will exaggerate the performance of the Instruments. Moreover, a small basket or an unequally weighted basket will generally leave the basket more vulnerable to changes in the value of any particular basket constituent.]</p> <p>[Automatic early redemption – Certain types of Instruments may be redeemed automatically prior to their scheduled maturity date if certain conditions are met. In some circumstances, this may result in a loss of part, or all, an investor's investment.]</p> |

| Section C – The Instruments | |
|-----------------------------|--|
| | <p>[Warrants, Turbo Warrants, Market Warrants and MINI Futures] – Due to the structure of certain Instruments, the performance of the underlying asset will affect the price of the Instrument and may lead to larger profits or losses on invested capital than if the investment had been made directly in the underlying asset. This is normally expressed by saying that the Instruments have a leverage effect compared with an investment in the underlying asset, i.e. a change in price (both upwards and downwards) of the underlying asset results, in percentage terms, in a greater change in the value of the Instruments. Consequently, the risk associated with an investment in such Instruments is greater than with an investment in the underlying asset. Such Instruments may become worthless.</p> <p>Warrants and Market Warrants may also include performance structures that are more complex and correspond to those applicable to Certificates. Thus, the risks relating to Certificates as set forth below may also be applicable to Warrants and Market Warrants.]</p> <p>[Risks associated with Certificates] – If the underlying asset becomes worthless (for example, because the company which issued the underlying share has gone into bankruptcy), the Certificate will also become worthless. The value of a Certificate may also be affected by changes in exchange rates, if the underlying asset is denominated in a currency other than the Certificate's denomination currency. An investor in a Certificate should note that the entire sum invested may be lost. Where the Certificate is structured in order to generate a return in a bear market (i.e. to sell or "short" the Underlying Asset), an increase in value of the underlying asset will result in a decrease in the value of the Certificate. During the term, the value of a Certificate is affected by changes in volatility, performance and dividends on the underlying asset as well as changes in market interest rates. If the Certificate has one or several barrier levels, this can mean that the amount that an investor is entitled to receive on redemption will be less than the invested amount or that the right to any specific return lapses.]</p> <p>Other risks associated with Instruments may relate, <i>inter alia</i>, to changes in interest rates, changes in exchange rates, whether the Issuer is entitled to redeem the Instruments prematurely, the complexity of the financial instruments, fluctuations in relevant indices, other underlying assets or the financial market, and whether repayment is dependent on circumstances other than the credit-worthiness of the relevant Issuer.</p> <p>An investment in relatively complex securities such as the Instruments involves a greater degree of risk than investing in less complex securities. In particular, in some cases, investors may stand to lose the value of their entire investment or part of it, as the case may be.</p> |

SAMMANFATTNING AV GRUNDPROSPEKTET

Sammanfattningar består av informationskrav vilka redogörs för i ett antal punkter. Punkterna är numrerade i avsnitt A–E (A.1–E.7).

Denna sammanfattning innehåller alla de punkter som krävs i en sammanfattning för denna typ av värdepapper och dessa Emittenter. Eftersom vissa punkter inte är aktuella kan det finnas luckor i punkternas numrering.

Även om det krävs att en punkt inkluderas i en sammanfattning för aktuella typer av värdepapper och för den relevanta Emittenten, är det möjligt att ingen relevant information kan ges rörande punkten. Informationen har då ersatts med angivelsen "Ej tillämpligt".

Särskilt punkter i kursiv stil betecknar utrymmen för att färdigställa den emissionsspecifika sammanfattningen för en Tranch av Instrument för vilka en sådan emissionsspecifik sammanfattning ska förberedas.

Ord och uttryck som definieras i avsnitten som kallas "Allmänna Villkor för Instrumenten" eller på andra ställen i detta Grundprospekt har samma betydelse i denna sammanfattning.

Instrumenten kan också upptas till handel på NASDAQ Stockholm, NASDAQ Helsinki, NASDAQ Copenhagen, Oslo Børs samt Nordic Growth Market NGM AB – NDX (Nordic Derivatives Exchange). Programmet tillåter även att Instrumenten emitteras på basis att de inte kommer noteras eller tas upp till handel på någon börs eller handelsplatser, eller att de kommer noteras eller tas upp till handel på sådana börser eller handelsplatser som kan avtalas om med den relevanta Emittenten.</p> <p><i>Instrumenten är icke-noterade Instrument/Ansökan kommer göras för att Instrumenten ska noteras på [] och tas upp till handel på [] med verkan från [].</i></p> |
| C.15 | Lånens värde och värdet för det underliggande: | <p>Instrumenten och underliggande tillgångar: Instrumenten består av värdepapper i form av warranter och certifikat ("Instrumenten"). Värdet på Instrumenten beror av värdet på de underliggande tillgångar och den avkastning, ränta och avkastningsstruktur som gäller för Instrumenten.</p> <p>Underliggande Tillgångar är: <i>[aktier] [index] [depåbevis] [obligationer] [växelkurser] [rävaror] [fonder] [räntor] [korgar] [terminer]</i>.</p> <p>Warranter: En warrant är ett finansiellt instrument som ger investeraren en exponering mot en viss underliggande tillgång, t.ex. ett värdepapper eller ett index. Warranter kan också ges ut som Turbowarranter, Marknadswarranter eller MINI Futures som beskrivs närmare nedan.</p> <p>Konstruktionen av warranter gör att prisutvecklingen i den underliggande tillgången påverkar värdet på warranterna och kan leda till större vinst eller förlust på investerat kapital än om placeringen hade gjorts direkt i den underliggande tillgången.</p> |
| | | <p>Beräkningen av slutlikviden kan variera för olika serier av warranter. Generellt beräknas slutlikviden enligt följande:</p> <ul style="list-style-type: none"> (i) Warrantens värde på slutdagen bestäms för Köpwarranter av hur mycket den underliggande tillgångens kurs överstiger warrantens lösenkurs. En investerare som köper Köpwarranter spekulerar i en uppgång i värde av den underliggande tillgången. (ii) Warrantens värde på slutdagen bestäms för Säljwarranter av hur mycket den underliggande tillgångens kurs understiger warrantens lösenkurs. En investerare som köper Säljwarranter spekulerar i en nedgång i värde av den underliggande tillgången. <p>Om underliggande tillgång blir värdelös (exempelvis genom att det bolag som ger ut underliggande aktie går i konkurs), eller om den inte har en tillräckligt gynnsam värdeutveckling (som kan vara positiv eller negativ), blir warranten värdelös och den som investerat i warranten förlorar hela det investerade kapitalet.</p> |

| | |
|--|---|
| | <p>Turbowarranter är warranter som även har en s.k. barriärnivå, innehärande att "Turbowarrant Köp" förfaller omedelbart om den underliggande tillgången noteras lika med eller lägre än barriärnivån och "Turbowarrant Sälj" förfaller omedelbart om den underliggande tillgången noteras lika med eller högre än barriärnivån. Vid Turbowarranters förtida förfall utbetalas eventuellt Återbetalningsbelopp och Turbowarranten upphör att gälla.</p> <p>MINI Futures liknar Turbowarranter men har normalt en slutdag som inte är förutbestämd och en barriär som är annorlunda utformad än barriären för en Turbowarrant.</p> <p>Marknadswarranter är warranter som ges ut som en primärmarknadstransaktion och innehåller ofta ett underliggande belopp som utgör grunden för beräkning av eventuell avkastning. Marknadswarranter kan även innehålla värdeutvecklingsstrukturer motsvarande de som annars avser Certifikat enligt nedan. Marknadswarranter kan vara ett icke kapitalskyddat instrument. I sådant fall kan investerare i warranten komma att förlora hela eller delar av det investerade kapitalet. Marknadswarranter kan berättiga till att inlösa eller få avkastning på slutdagen (europeisk typ) men kan även vara strukturerad liknande en amerikansk option där investeraren har rätt att begära inlösen under warrantens löptid.</p> |
| | <p>Certifikat: Certifikat är finansiella instrument som ger investeraren en exponering mot en viss underliggande tillgång. Underliggande tillgångar kan utgöras av, bland annat, aktier eller aktieindex samt andra tillgångar såsom räntor, valutor, råvaror eller en kombination av ovanstående samt korgar av sådana tillgångar. För att ge ett Certifikat en specifik avkastningsprofil används ett antal definitioner. Certifikatet är ett icke kapitalskyddat instrument vilket innebär att investerare i Certifikatet kan komma att förlora hela eller delar av det investerade kapitalet.</p> <p>Instrumenten är: [Köpwarranter/Säljwarranter/Turbowarranter/Mini Futures/Marknadswarranter/Certifikat]</p> <p>Värdeutvecklingsstrukturer: De värdeutvecklingsstrukturer som kan komma att användas för Certifikat, Warranter och Marknadswarranter är, bland annat, följande:</p> |
| | <p>"Bas"-struktur - Basstrukturen för att beräkna värdeutvecklingen på Instrument är beroende av förändringen mellan start- och slutkurs för en eller flera underliggande tillgångar. För att minska risken för att tillfälliga värdeförändringar ger ett missvisande beräkningsunderlag vid beräkningen av slutvärdet på Instrument fastställs slutvärdet ofta som ett genomsnitt av underliggande tillgångarnas värde eller jämförelsetal vid ett antal mätidpunkter under en bestämd tidsperiod. Det förekommer dock att det endast finns en mätidpunkt av ett värde eller ett jämförelsetal under löptiden.</p> <p>"Max"-struktur – Maxstrukturen utgår från basstrukturen men innehåller en bestämd maxavkastning, det vill säga ett tak för hur hög avkastningen kan bli. Investeraren erhåller det lägsta av maxavkastningen och värdeutvecklingen på den underliggande tillgången. Om värdeutvecklingen i den underliggande tillgången överstiger den på förhand bestämda maxavkastningen får investeraren ett belopp motsvarande maxavkastningen.</p> <p>"Barriär"-struktur – Denna struktur innehåller en fastslagen kurs som ersätter slutkursen om slutkursen för den underliggande tillgången uppnår och/eller överstiger ett kurstak eller understiger ett kursgolv.</p> |

| | | |
|------|------------------------------------|---|
| | | <p><i>"Digital"-struktur</i> – Avkastningen i en digital struktur är beroende av hur värdet för en underliggande tillgång förhåller sig till en viss i förväg bestämd nivå på stängningsdagen.</p> <p><i>"Binär"-struktur</i> – Avkastningen i en binär struktur är beroende av hur värdet av en underliggande tillgång förhåller sig till en i förväg bestämd nivå under Instrumentets hela löptid.</p> <p><i>"Hävstångs"-struktur</i> – Hävstångsstruktur innebär vanligtvis att instrumentets värde rör sig proportionerligt med hävstången i förhållande till underliggande tillgång. Strukturen kan kombineras med bland annat en barriär eller ett tak.</p> <p><i>"Konstant Hävstång"-struktur</i> – En konstant hävstångsstruktur är en struktur där exponeringen mot underliggande tillgång under en definierad tidsperiod (till exempel en dag) ger en avkastning i förhållande till underliggande tillgång som är X gånger större jämfört med den underliggande tillgångens. Den konstanta hävstången kan både vara positiv och negativ och strukturen kombineras ofta med, exempelvis, en barriär.</p> |
| | | <p>Ovan angivna värdeutvecklingsstrukturer är ett urval av de vanligaste strukturerna. Dessa strukturer kan kombineras, varieras och användas i sin helhet eller endast delvis. Även andra värdeutvecklingsstrukturer kan bli tillämpliga.</p> <p><i>De(n) tillämpliga värdeutvecklingsstrukturen(-erna) är [].</i></p> <p>Deltagandegrad: Instrumentens struktur kan innehålla en deltagandegrad som används för att fastställa exponeringen mot respektive underliggande tillgång(ar), dvs. proportionen av ändring i värdet som tillfaller investeraren i varje individuellt Instrument. Deltagandegraden bestäms av den relevanta Emittenten och fastställs genom, bland annat, löptiden, volatiliteten, marknadsräntan och den förväntade avkastningen från underliggande tillgång.</p> <p><i>[Den indikativa] Deltagandegraden är: []</i></p> <p>Särskilda avkastningsstrukturer:</p> |
| | | <p>För Certifikat, Warranter och Marknadswarranter kan någon eller några av följande särskilda avkastningsstrukturer vara tillämpliga:</p> <p><i>"Cap/Floor", "Capped Floor Float", "Compounding Floater", "Range Accrual", "Digital Long", "Digital Short", "Basket Long", "Basket Short", "Autocallkupong", "Maxkomponent", "Valutakomponent – Korg" och "Valutakomponent – Underliggande Tillgång"</i></p> <p><i>[De(n) särskilda avkastningsstruktur(erna) som är tillämplig(a) för Instrumenten är: [•]/[Ej tillämpligt]</i></p> |
| C.16 | Inlösen- eller förfallodag: | <p>Med förbehåll för förtida återinlösen kommer Återbetalningsdagen att vara förfallodagen för Instrumenten, utom för de Instrument som inte har någon bestämd Återbetalningsdag ("open ended").</p> <p><i>Återbetalningsdagen är: [•]/Ej tillämpligt</i></p> |

| | | |
|------|---|--|
| C.17 | Avräknings-förfarande: | För alla Instrument sker automatiskt lösen genom kontantavräkning, vilket innebär att den relevanta Emittenten, om Instrument på Återbetalningsdagen berättigar till Återbetalningsbelopp, betalar innehavare av Instrument kontanter. Instrument ger inte innehavare rätt att erhålla underliggande tillgång. |
| | | <p>Avräkning av Instrument som är registrerade vid VP ska ske i enlighet med VP-reglerna, avräkning av Instrument som är registrerade vid VPS ska ske i enlighet med VPS-reglerna, avräkning av Instrument som är registrerade vid Euroclear Sweden ska ske i enlighet med Euroclear Swedens regler och avräkning av Instrument som är registrerade vid Euroclear Finland ska ske i enlighet med Euroclear Finlands regler.</p> <p>Avräkning av Instrument som representeras av ett Globalt Instrument ska ske på den relevanta betalningsdagen och ska verkställas genom att den relevanta Emittenten betalar tillämpliga kapitalbelopp och/eller ränta till Registreringsagenten för vidareförmedling till Euroclear och Clearstream, Luxemburg. Investerare erhåller återbetalningsbeloppen genom deras konton i Euroclear och Clearstream, Luxemburg i enligt med sedvanliga avräkningsrutiner hos Euroclear och Clearstream, Luxemburg.</p> <p>Avseende Instrument som är utfärdade i fysisk form sker betalning av Återbetalningsbeloppet efter att det relevanta Instrumentet presenterats och överlämnats på Registreringsagentens angivna kontor.</p> |
| | | <i>Avräkning av Instrument ska ske: i enlighet med rutinerna hos [VP/VPS/Euroclear Sweden/Euroclear Finland/Euroclear och Clearstream, Luxemburg]</i> |
| C.18 | Avkastning: | <p>Avkastningen eller Återbetalningsbeloppet som ska betalas till Investerare kommer att beräknas med grund i utvecklingen av de underliggande tillgångarna inom en viss värdeutvecklingsstruktur som är tillämplig för Instrumenten. En eller flera kuponger kan också, utöver Återbetalningsbeloppet, komma att betalas ut. Närmare uppgifter om olika värdeutvecklingsstrukturer och avkastningsstrukturer anges i avsnitt C.15.</p> <p><i>Närmare uppgifter om olika värdeutvecklingsstrukturer och avkastningen för Instrumenten anges i avsnitt C.15.</i></p> |
| C.19 | Optionskurs eller Slutligt Referenspris: | Det slutliga värdet för den eller de relevanta underliggande tillångarna kommer att påverka det Återbetalningsbelopp som ska betalas till Investerarna. Det slutliga värdet kommer att bestämmas på den tillämpliga Värderingsdagen. |
| | | <i>[Det slutliga värdet på den underliggande tillgången kommer att beräknas som [slutkurs]/[genomsnittliga slutkurser] som publiceras av [•] på [•], [•] och [•].]</i> |
| C.20 | Typ av underliggande: | <p>Underliggande tillgångar kan utgöras av, eller en kombination av, följande: aktie, depåbevis, obligation, råvara, räntekurser, växelkurs, terminskontrakt, fonder, index eller en korg av tillgångar. Utvecklingen för den underliggande tillgången påverkar värdet och eventuell avkastning på warranten eller certifikatet.</p> <p><i>Typ av underliggande tillgång(ar) är: [].</i></p> |

| Avsnitt D - Risker | | |
|--------------------|---|---|
| D.2 | Risker specifika för Emittenterna: | <p>Vid förvärv av Instrument påtar sig investerarna risken att Emittenten kan bli insolvent eller på annat sätt bli oförmögen att betala förfallna belopp hänförliga till Instrumenten. Det finns ett stort antal faktorer som var för sig eller tillsammans kan leda till att Emittenten blir oförmögen att betala förfallna belopp hänförliga till Instrumenten. Det är inte möjligt att identifiera alla sådana faktorer eller fastställa vilka faktorer som är mest troliga att inträffa, eftersom Emittenten kan vara ovetande om alla relevanta faktorer samt att vissa faktorer som denne för närvarande inte anser vara relevanta kan komma att bli relevanta till följd av händelser som inträffar och som befinner sig utanför Emittentens kontroll. Emittenterna har i Grundprospektet identifierat ett antal faktorer som avsevärt skulle kunna inverka negativt på dess respektive verksamhet och förmåga att under Instrumenten betala förfallna belopp. Dessa faktorer innehållar:</p> <p><i>Risker med anknytning till aktuella makroekonomiska förhållanden</i></p> <p>Risker med anknytning till den europeiska ekonomiska krisen har haft och kan, trots den senaste periodens stabilisering, även i fortsättningen komma att ha, en negativ påverkan på den globala ekonomin och finansmarknaderna. Om förhållandena kvarstår, eller om turbulens uppstår på dessa eller andra marknader, kan det på ett betydande sätt negativt påverka Nordeakoncernens förmåga att få tillgång till kapital och likviditet på ekonomiska villkor som Nordeakoncernen kan acceptera.</p> <p>Vidare påverkas Nordeakoncernens resultat på ett betydande sätt av det allmänna ekonomiska läget i de länder där den bedriver verksamhet, i synnerhet på de nordiska marknaderna (Danmark, Finland, Norge och Sverige). En negativ utveckling för ekonomin och marknadsförhållanden där koncernen bedriver verksamhet, kan negativt påverka koncernens verksamhet, finansiella tillstånd och verksamhetsresultat och det åtgärder som Nordeakoncernen vidtar kan visa sig otillräckliga för att minska kredit-, marknads- och likviditetsrisker.</p> <p><i>Risker med anknytning till Nordeakoncernens kreditportfölj</i></p> <p>Negativa ändringar i kreditvärdigheten hos Nordeakoncernens låntagare och motparter, eller en minskning i värdet för säkerheter, kommer sannolikt påverka Nordeakoncernens återhämtningsmöjligheter och värdet av dess tillgångar, vilket kan kräva en ökning av företagets enskilda regler och eventuellt i de kollektiva reglerna för dåliga lån. En betydande ökning i storleken på Nordeas avsättningar för låneförluster och låneförluster som inte täcks av avsättningar, skulle på ett betydande sätt negativt påverka Nordeakoncernens verksamhet, finansiella ställning och resultat.</p> <p>Nordeakoncernen är exponerad för motparters kreditrisker, förlikningsrisker och överlätelserisker i förhållande till transaktioner som genomförs inom sektorn för finansiella tjänster och denna sektors handel med finansiella instrument. Om motparterna inte klarar att fullgöra sina åtaganden kan detta på ett betydande sätt negativt påverka Nordeakoncernens verksamhet, finansiella ställning och resultat.</p> |

| | | |
|--|--|---|
| | | <p>Risker med anknytning till marknadsexponering</p> <p>Värdet på finansiella instrument som ägs av Nordeakoncernen är känsliga för volatiliteten i, och korrelationer mellan, olika marknadsvariabler, bland annat räntor, kreditspridningar, aktiepriser och utländska valutakurser. Nedskrivningar eller avskrivningar som kostnadsförlits kan på ett betydande sätt negativt påverka Nordeakoncernens verksamhet, ekonomiska läge och verksamhetsresultat, medan finansmarknadens resultat och volatila marknadsförhållanden kan resultera i en betydande minskning i Nordeakoncernens handels- och investeringsinkomster, eller leda till en handelsförlust.</p> <p>Nordeakoncernen är utsatt för strukturella marknadsrisker</p> <p>Nordeakoncernen är utsatt för strukturell ränteinkomstrisk när det råder ett missförhållande mellan perioder då räntesatser förändras, volymer eller referensräntor för sina tillgångar, skulder och derivat. Nordeakoncernen är även utsatt för valutakonverteringsrisk som uppstår genom företagets svenska och norska bankverksamheter när den sammanställer koncernens konsoliderade årsredovisning i sin funktionella valuta, euron. Om ett missförhållande råder under en viss period, vid ändringar i räntan, eller om valutariskexponeringen inte hedgas tillräckligt, kan det få en betydande negativ påverkan för Nordeakoncernens finansiella ställning och resultat.</p> <p>Risker med anknytning till likviditets- och kapitalkrav</p> <p>En betydande andel av Nordeakoncernens likviditets- och finansieringskrav uppfylls genom insättningar från kunder, samt även en kontinuerlig tillgång till marknader för storskaliga lån, bland annat utfärdandet av långfristiga skuldebrev, t.ex. säkerställda obligationer. Turbulens på de globala finansmarknaderna och ekonomin kan negativt påverka Nordeakoncernens likviditet och villigheten hos vissa motparter och kunder att göra affärer med Nordeakoncernen.</p> <p>Nordeakoncernens verksamhetsresultat kan påverkas om de kapitaltäckningsnivåer som måste upprätthållas enligt tillämpligt regelverk, innefattandes Europaparlamentets och Rådets direktiv 2013/36/EU, Europaparlamentets och Rådets förordning nr. 575/2013 och de andra regler som reglerar kapitaltäckning, eller andra krav som är tillämpliga på någon Emittent eller Nordeakoncernen och som medför (ensamt eller tillsammans med andra regler och förordningar) krav för att finansiella instrument ska kunna inräknas i någon Emittents eller Nordeakoncernens regulatoriska kapital (var för sig eller på konsoliderad basis, som tillämpligt) i den utsträckning som krävs enligt direktiv 2013/36/EU, förordning nr. 575/2013, inklusive de tekniska standarder släppta av europeiska bankmyndigheten (EBA) (eller dess efterträdare eller ersättare) ("CRD IV"), minskar eller anses otillräckliga.</p> <p>Nordeakoncernens finansieringskostnader och dess tillgång till skuldkapitalmarknader påverkas på ett betydande sätt av dess kreditbetyg. En sänkning av kreditbetyget kan negativt påverka Nordeakoncernens tillgång till likviditet och dess konkurrensläge, och därfor på ett betydande sätt negativt påverka dess verksamhet, finansiella ställning och resultat.</p> |
|--|--|---|

| | | |
|--|--|---|
| | | <p><i>Andra risker med anknytning till Nordeakoncernens verksamhet</i></p> <p>För att Nordeakoncernens verksamhet ska fungera måste företaget kunna genomföra ett stort antal komplexa transaktioner på olika marknader i många valutor. Transaktioner genomförs genom många olika enheter. Trots att Nordeakoncernen har implementerat riskkontroller och vidtagit andra åtgärder för att minska exponeringen och/eller förlusterna, finns inga garantier för att sådana procedurer kommer att vara effektiva i att hantera de olika verksamhetsrisker som Nordeakoncernen står inför, eller att Nordeakoncernens rykte inte skadas genom förekomsten av operationell risk.</p> <p>Nordeakoncernens verksamheter i Ryssland och Baltikum – marknader som vanligen är mer volatila och mindre ekonomiskt och politiskt utvecklade än marknaderna i Västeuropa och Nordamerika – innehåller olika risker som inte gäller, eller gäller i mindre grad, för företagets verksamheter i Norden. Vidare är vissa av dessa marknader vanligtvis mer volatila och mindre utvecklade rent ekonomiskt och politiskt än marknader i Västeuropa och Nordamerika.</p> <p>Nordeakoncernens resultat bygger till stor del på dess anställdas höga kompetens och yrkesskicklighet. Nordeakoncernens fortsatta förmåga att konkurrera effektivt och implementera sin strategi är beroende av förmågan att dra till sig nya anställda och att behålla och motivera befintliga anställda. Nya regulatoriska begränsningar, såsom nyligen införda begränsningar på vissa typer av ersättningar som får betalas av kreditinstitut och värdepappersbolag som följer av CRD IV, kan negativt inverka på Nordeakoncernens förmåga att attrahera ny personal och att behålla och motivera nuvarande personal. Förluster av vissa nyckelpersoner, särskilt om de går över till konkurrenter, eller en oförmåga att dra till sig och behålla högkompetent personal i framtiden, kan få en negativ effekt på Nordeakoncernens verksamhet.</p> <p>Det råder konkurrens om de olika typer av banktjänster och produkter som Nordeakoncernen erbjuder. Det finns inga garantier för att Nordeakoncernen kommer att behålla sin konkurrensposition.</p> <p><i>Risker med anknytning till föreslagen gränsöverskridande fusion av dotterbolag</i></p> <p>Nordeakoncernen har offentliggjort en föreslagen fusion av Nordea Bank Danmark A/S, NBF respektive Nordea Bank Norge ASA med Nordea Bank AB. De föreslagna fusionerna är föremål för vissa risker och osäkerheter, inklusive att Nordeakoncernen inte erhåller nödvändiga regulatoriska tillstånd eller att utgången av de diskussioner som förs med olika myndigheter, däribland lokala finansiella tillsynsmyndigheter och skattemyndigheter, inte är tillfredsställande. Varje försening med att erhålla de nödvändiga godkännandena kan också försena verkställandet av de föreslagna fusionerna och ett misslyckande att genomföra fusionerna kan resultera i att Nordeakoncernen inte erhåller de förväntade fördelarna.</p> <p><i>Risker med anknytning till lagar och regulatoriska krav på området där Nordeakoncernen bedriver sin verksamhet</i></p> <p>Nordeakoncernen måste följa ett stort antal regler och kontrolleras av olika myndigheter, såväl som lagar och bestämmelser, administrativa påbud och policyer i de olika jurisdiktioner som företaget verkar, vilka alla kan ändras. Detta kan vid var tid för förändring innehålla betydande utgifter.</p> |
|--|--|---|

| | | |
|-----|---------------------|--|
| | | <p>Nordeakoncernen kan ådra sig betydande kostnader för kontroller och uppfyllandet av nya kapitalkrav, samt krav på återvinnning och upplösning, vilket även kan påverka befintliga affärsmodeller. Vidare finns inga garantier om att brott mot lagar och bestämmelser av Nordeakoncernen inte sker eller att, om ett sådant brott sker, företaget inte får betala stora skadestånd eller böter.</p> <p>Under normal drift av verksamheten är Nordeakoncern utsatt för risker med anknytning till myndigheters tillsyn och skadeståndskyldighet. Nordeakoncernen är föremål för många olika anspråk, tvister, processer och statliga utredningar i jurisdiktioner där företaget är aktivt. Dessa slags anspråk och processer utsätter Nordeakoncernen för risker för monetära skadestånd, direkta eller indirekta förluster (bl.a. rättskostnader), direkt eller indirekt ekonomisk förlust, civilrättsliga och straffrättsliga sanktioner, förlust av licenser eller renomméförlust, kritik eller sanktioner från övervakande myndigheter, samt även risken för restriktioner för verksamhetens fortsatta drift.</p> <p>Nordeakoncernens verksamhet beskattas olika runt om i världen i enlighet med lokala lagar och praxis. Lagändringar eller beslut av skatemyndigheterna kan skada Nordeakoncernens nuvarande eller tidigare skatteläge.</p> <p>Förändringar i redovisningspolicys och –standarder tillämpliga för Nordeakoncernen kan också komma att väsentligt påverka hur den rapporterar sin finansiella ställning och sitt rörelseresultat.</p> |
| D.6 | Riskvarning: | <p>Denna risksammanfattning utgör endast en kort beskrivning av vissa väsentliga risker och ska inte ses som en uttömmande uppräkning av alla risker som följer med Instrumenten eller en investering i dessamma. Investeraren bör noggrant granska och överväga dessa risker samt all annan information i Grundprospektet. Vissa risker härför sig till omständigheter bortom Emittenternas kontroll, t.ex. uppkomsten av en effektiv andrahandsmarknad, stabiliteten hos de relevanta clearing- och avräkningssystemen samt det makroekonomiska läget i de nordiska ekonomierna och världen i stort.</p> <p>Produktens komplexitet – Avkastningsstrukturen för Instrumenten är ibland komplex och kan innehålla matematiska formler eller samband som, för en investerare, kan vara svåra att förstå och jämföra med andra investeringsalternativ. Noteras bör att relationen mellan avkastning och risk kan vara svår att utvärdera.</p> <p>Prissättning av Instrument – Prissättningen av Instrumenten bestäms vanligen av Emittenten ifråga, och inte utifrån förhandlade villkor. Det kan därför uppstå en intressekonflikt mellan Emittenten ifråga och investerarna, i det att Emittenten ifråga kan påverka prissättningen och försöker generera en vinst eller undvika en förlust i relation till de underliggande underliggande tillgångarna. Emittenterna har ingen skyldighet att agera i Innehavarnas intresse.</p> <p>Underliggande tillgångars värdeutveckling – Med Instrumenten är Innehavarnas rätt till avkastning och ibland återbetalningen av kapitalbeloppet, beroende av hur bra utvecklingen är för en eller flera underliggande tillgångar och den gällande avkastningsstrukturen. Värdet på Instrumenten påverkas av värdet på de underliggande tillgångarna vid vissa tidpunkter under Instrumentens löptid, hur starkt kurserna hos de underliggande tillgångarna varierar, förväntningarna angående den framtida volatiliteten, marknadsränkor och förväntade utdelningar på de underliggande tillgångarna. I vissa situationer kan en investerare komma att</p> |

| | |
|--|--|
| | <p>förlora hela det investerade kapitalet.</p> <p>[Växelkursfluktuationer – I de fall där de underliggande tillgångarna är noterade i en annan valuta än investerarens valuta kan växelkursfluktuationer påverka avkastningen på Instrumenten. Växelkurserna för utländsk valuta kan påverkas av komplexa politiska och ekonomiska faktorer, inklusive relativa inflationstakter, betalningsbalansen mellan länder, storleken på regeringars budgetöverskott eller budgetunderskott och den monetära, skatte- och/eller handelspolitiska policy som följs av de relevanta valutornas regeringar. Valutafluktuationer kan påverka värdet eller nivån hos de underliggande tillgångarna på komplexa sätt. Om sådana valutafluktuationer får värdet eller nivån hos en eller flera underliggande tillgångar att variera, så kan värdet eller nivån på Instrumenten falla. Om värdet eller nivån hos en eller flera underliggande tillgångar är utfärdade i en valuta som är annan än valutan i vilken Instrumenten är utfärdade, så kan investerarna vara utsatta för en ökad risk som kommer från växelkurser för främmande valutor. Tidigare växelkurser för utländska valutor är inte nödvändigtvis indikationer beträffande framtida växelkurser för utländska valutor.]</p> <p>[Aktier som underliggande tillgång – Aktielänkade Instrument är inte sponsrade eller främjade av emittenten av aktierna. Emittenten av aktierna har därför inte någon skyldighet att beakta intresset för de som investerat i Instrumenten och åtgärder tagna av en sådan emittent av aktier kan negativt påverka Instrumentens marknadsvärde.</p> <p>Den som investerat i Instrumenten har inte rätt att få några utbetalningar eller andra utdelningar till vilka en direkt ägare av de underliggande aktierna annars skulle ha rätt.]</p> <p>[Index som underliggande tillgång – Investerare i Instrument som baserar sig på index som underliggande tillgång kan få lägre betalning vid inlösen av sådana Instrument än om hen hade investerat direkt i de aktier/tillgångar som utgör indexet. Sponsorn av vilket som helst index kan lägga till, ta bort eller ersätta komponenter eller göra metodändringar som kan påverka nivån på sådant index och därmed den avkastning som skall betalas till investerare i Instrumenten. Nordeakoncernen kan också ta del i att skapa, strukturera och underhålla indexportföljer och indexstrategier (och kan även agera indexsponsor i förhållande till) (gemensamt "Egna Sammansatta Index"). Det kan därför uppstå intressekonflikter för Emittenterna i deras roll som Emittent av sådana Instrument och i deras (eller deras närmiljöende partners) ställning i att upprätta, marknadsföra, skapa eller administrera sådana index.]</p> <p>[Råvaror som underliggande tillgång – Handel i råvaror är spekulativt och kan vara extremt volatilt eftersom råvarupriser påverkas av faktorer som är oförutsägbara, såsom ändringar i relationerna mellan tillgång och efterfrågan, vädermönster och myndighetsbeslut. Råvarukontrakt kan även handlas direkt mellan marknadsaktörer "over-the-counter" på handelsplatser som är föremål för minimal eller begränsad reglering. Detta ökar riskerna som sammanhänger med likviditet och prishistorik för de relevanta kontrakten. Instrument som är länkade till terminskontrakt för råvaror kan ge en annan avkastning än Instrument som är länkade till den relevanta fysiska råvaran, eftersom priset på ett terminskontrakt för en råvara allmänt innefattar en premie eller en rabatt jämfört med dagspriset för den underliggande råvaran.]</p> |
|--|--|

| | |
|--|--|
| | <p>[Exponering mot en korg av underliggande tillgångar – Där den underliggande tillgången består av en eller flera korgar av underliggande tillgångar, bär investerarna risken för värdeutvecklingen för var och en av komponenterna som korgen innehåller. Där det är en hög nivå av ömsesidigt beroende mellan de individuella delarna av korgens innehåll, så kan en ändring i utvecklingen hos korgens delar överdriva värdeutvecklingen av Instrumenten. Dessutom kan en liten korg eller en olikartat viktad korg göra korgen sårbar för ändringar i värdet hos en särskild korgkomponenterna.]</p> <p>[Automatisk förtida återinlösen – Vissa typer av Instrument kan automatiskt återinlösas före deras planerade förfallodatum om vissa villkor är uppfyllda. I en del fall kan detta resultera i en förlust av en del eller hela investerarens investering.]</p> <p>[Warranter, Turbowarranter, Marknadswarranter, MINI Futures – Konstruktionen av Instrumenten gör att prisutvecklingen på den underliggande tillgången får genomslag i kurserna på sådana Instrument och kan leda till större vinst eller förlust på insatt kapital än om placeringen hade gjorts direkt i den underliggande tillgången. Detta brukar uttryckas så att Instrumenten har en hävstångseffekt jämfört med en investering i underliggande tillgång, dvs. en kursförändring (såväl uppgång som nedgång) för underliggande tillgång medföljer en procentuell sett större förändring av värdet på Instrumenten. Detta medföljer att risken att investera i sådana Instrument är större än att investera i underliggande tillgång. Instrumenten kan förfalla utan värde.</p> <p>Warranter och Marknadswarranter kan även innehålla värdeutvecklingsstrukturer som är mer komplicerade och motsvarar de värdeutvecklingsstrukturer som anges vara tillämpliga avseende Certifikat. De risker som är relevanta för Certifikat enligt nedan kan därför även vara tillämpliga på Warranter och Marknadswarranter.]</p> <p>[Risken förenade med certifikat – Om den underliggande tillgången blir värdelös (exempelvis genom att bolaget som ger ut underliggande aktie går i konkurs) blir Certifikatet också värdeöst. Värdet på ett Certifikat kan också påverkas av valutakursförändringar – om den underliggande tillgången är denominerad i en annan valuta än Certifikatets denomineringsvaluta. En investerare i ett Certifikat bör notera att hela det investerade beloppet kan gå förlorat. För det fall Certifikatet är konstruerat för att ge avkastning i en nedåtgående marknad (att sälja eller "short" den Underliggande Tillgången) ger en värdeökning i den underliggande tillgången en värdeminskning i Certifikatet. Under löptiden påverkas Certifikatets värde av förändringar i volatilitet, prisutveckling och utdelningar i den underliggande tillgången samt marknadsränteförändringar. Om Certifikatet innehåller en eller flera barriärnivåer kan detta innebära att det belopp som en investerare har rätt att erhålla på återbetalningsdagen understiger det investerade beloppet eller att rätten till eventuell särskild avkastning bortfaller.]</p> <p>Övriga risker förenade med Instrument kan ha att göra med bland annat ränteförändringar, valutakursförändringar, om Emittenterna har rätt att inlösa Instrumenten i förtid, komplexiteten av de finansiella instrumenten, svängningar hos relevanta index, andra underliggande tillgångar eller den finansiella marknaden och om återbetalning är beroende av andra förhållanden än Emittenternas kreditvärdighet.</p> |

| | | En investering i relativt komplexa värdepapper, såsom Instrument, för med sig en högre risk än att investera i mindre komplexa värdepapper. I en del fall kan investerare förlora värdet av hela sin investering eller delar därav, från fall till fall. |

| E.4 | Relevant intressen/intresse konflikter för Erbjudandet: | Auktoriserade Säljare kan betalas genom avgifter i samband med emissionen av Instrument under detta Program. Såvitt Emittenten känner till, har ingen person involverad i emissionen av Instrumenten något intresse som är relevant för emissionen./[•]. |
| E.7 | Beräknade kostnader: | Det förväntas inte att den relevanta Emittenten kommer att debitera några avgifter till investerare i samband med någon emission av Instrument. Andra Auktoriserade Säljare kan emellertid debitera utgifter till investerare. Utgifter som är debiterbara för en Auktoriserad Säljare ska debiteras i enlighet med kontraktsmässiga arrangemang som överenskomits mellan Investeraren och en aktuell Auktoriserad Säljare vid tiden för det relevanta erbjudandet. Sådana utgifter (om några) kommer fastställas från fall till fall. Emittenten [eller någon Auktoriserad Säljare] debiterar inte investerare för några avgifter./Den Auktoriserade Säljaren/na kommer att debitera investerarna för utgifter. APPENDIX 2
SELECTED FINANCIAL INFORMATION

The tables below show certain selected summarised financial information which, without material changes, is derived from NBAB's and NBF's audited consolidated financial statements for the year ended 31 December 2015, which are set out in the Annexes to the Base Prospectus and NBAB's and NBF's unaudited consolidated financial statements for the six month period ending 30 June 2016, which are set out in the Annex to this Supplement.

NBAB's and NBF's consolidated financial statements are prepared in accordance with the International Financial Reporting Standards ("IFRS") and interpretations of such standards by the International Financial Reporting Interpretations Committee, as endorsed by the EU Commission. In addition, certain complementary rules in the Swedish Act on Annual Reports in Credit Institutions and Securities Companies (1995:1559) and the recommendation RFR 1 "Supplementary Accounting Rules for Groups", and UFR statements issued by the Swedish Financial Reporting Board as well as the accounting regulations of the SFSA's (FFFS 2008:25, with amendments in FFFS 2009:11 and 2011:54), have also been applied in the preparation of NBAB's accounts.

The tables below shall be read together with the auditor's report (in the case of NBAB's and NBF's audited consolidated financial statements for the year ended 31 December 2015).

⁶ As discussed in more detail under "*Changed accounting policies*" in the NBAB Second Quarter Report 2016 which is set out in the Annex to this Supplement, figures marked with a "*" have been restated due to changed accounting policies and presentation and are unaudited. There has been no restatement of the figures for the year ended 31 December 2014.

⁷ As discussed in more detail under "*Changed accounting policies*" in the NBAB Second Quarter Report 2016, the Nordea Group has in its unaudited consolidated balance sheet as of 30 June 2016 reclassified certain investments made on behalf of customers in interest-bearing securities and shares in pension pools and unit-linked investment contracts to the separate balance sheet line "assets in pooled schemes and unit-linked investment contracts." The unaudited figures as of 31 December 2015 and as of 30 June 2016 in the above table reflect this reclassification.

⁸ As a result of the accounting policy changes discussed in footnote 5 above, the corresponding liabilities to customers have been reclassified to the separate balance sheet line "deposits in pooled schemes and unit-linked investment contracts." The unaudited figures as of 31 December 2015 and as of 30 June 2016 in the above table reflect this reclassification.

UTVALD FINANSIELL INFORMATION

Den beskrivning av utvald finansiell information som återfinns nedan är en inofficiell översättning av den engelska texten som återfinns omedelbart före detta avsnitt och investerare rekommenderas att även läsa och ta till sig de engelska beskrivningarna då dessa kan avvika från den svenska översättningen.

Nedanstående tabeller visar viss, utvald, finansiell information i sammandrag som, utan väsentliga ändringar, hämtats från NBAB och NBF:s reviderade redovisningar för det år som slutar den 31 december 2015, som återfinns i Annexet till Grundprospektet och NBAB:s och NBF:s oreviderade konsoliderade räkenskaper avseende den sexmånadersperiod som slutar den 30 juni 2016 och återfinns i Annexet till detta Tilläggsprospekt.

NBAB och NBF:s redovisning upprättas i enlighet med International Financial Reporting Standards (IFRS), med tillhörande tolkningar från International Financial Reporting Interpretations Committee (IFRIC), godkända av EU-kommissionen. Vidare har vissa kompletterande regler i enlighet med lag (1995:1559) om årsredovisning i kreditinstitut och värdepappersbolag (ÅRKL), rekommendation "RFR 1" Kompletterande redovisningsregler för koncerner", uttalanden från Rådet för finansiell rapportering (UFR) och Finansinspektionens föreskrifter (FFFS 2008:25 med ändringar i FFFS 2009:11 och 2011:54) tillämpats vid upprättandet av NBAB:s rapporter.

Nedanstående tabeller skall läsas tillsammans med revisionsberättelsen (avseende NBAB:s och NBF:s reviderade redovisningar för det år som slutar den 31 december 2015).

¹⁰ Som har diskuterats mer i detalj under avsnitt "Förändrade räkenskapspolicyer" i NBAB:s Andra Halvårsrapport 2016, som återfinns i Annexet till detta Tilläggssprospekt, har siffror markerade med "*" återgivits på grund av den förändrade räkenskapspolicyn och presentationen och är oreviderade. Siffrorna för året som slutar den 31 december 2014 har inte återgivits.

¹¹ Som har diskuterats mer i detalj under avsnitt "Förändrade räkenskapspolicyer" i NBAB:s Andra Halvårsrapport 2016, har Nordea-koncernen i sin oreviderade konsoliderade balansräkning från den 30 juni 2016 omklassifierat vissa investeringar, som har gjorts å dess kunders vägnar i räntebärande säkerheter och aktier i pensionspooler och unit-länkade investeringskontrakt, till den separerata posten "tillgångar i poolade program och unit-linked investeringskontrakt" i balansräkningen.

¹² Som ett resultat av den förändrade räkenskapspolicyn omnämnt ovan i fotnot 5, har motsvarande skuld gentemot kunderna omklassifierats till den separata posten "insättningar i poolade program och unit-linked investeringskontrakt" i balansräkningen. De oreviderade siffrorna per den 31 december 2015 och per 30 juni 2016 i ovan tabell reflekterar denna omklassificering.
